# Stranger Than Science

**Martin K. Ettington**

## **Stranger Than Science:**

Stranger Than Science Frank Edwards, 1992-05-01 Presents accounts of true and unusual incidents that are unable to be explained by modern science      **Stranger Than Science Stories and Facts-Volume Two** Martin K Ettington, 2022-03-30 This book is my second on stranger than science stories and facts The idea is from the book Stranger Than Science by Frank Edwards that I read when I was a kid It made a great impression on me since it caused me to be curious about all of the unknown facts in the world In this Volume Two I've gone through my 120 plus books again to find interesting subjects I've either experienced or researched which were not discussed in the first book My goal is to open the eyes of the reader to facts and stories about the unknown they may not know about Hopefully this will lead you to become more open minded and think seriously about new things which may not have been part of your life before Here you will read stories about the Paranormal Spiritual Enlightenment Legendary animals like Dragons giant snakes living dinosaurs ball lightning alien anti gravity technology improving longevity and much more I promise you will not be bored with the materials we cover here After reading this book I hope you can see that our world is truly mysterious and the more we know the more questions we have and the more there is to know      **Strange Tales from National Parks** Martin K. Ettington, National Parks here and abroad have an unusual number of strange scary and weird activities going on It may be because these areas cover some of the most hidden and still natural and undisturbed locations in the world These parks offer undisturbed areas where man does not intrude normally and many activities can be hidden there The stories in this book are mostly by Park Rangers who spent years in the outback of these parks and tell of their unusual and sometimes very scary experiences I've divided up these stories mainly by types like missing persons Bigfoot sightings Aliens and UFOs and more Some experiences are so weird or unusual they were hard to categorize so they are in the chapter titled Random Stories From my own experiences camping the wilderness I know that you need to be prepared for the unexpected All of these stories were reported as true but who is to say what the real truth is      **Radionics and Life Force Technologies** Martin K. Ettington, Radionics is the term for machines which manipulate life forces This is often for healing or increasing psychic perceptions The Author is an engineer and has many decades of experience with the paranormal and well as time learning and experimenting with radionics devices from the 1970s While radionics devices are often considered pseudoscience those opinions don't take into account the sensitivities of individuals who have incredible paranormal and healing abilities In my first year of engineering school at Rensselaer Polytechnic Institute in Troy New York I met a man who became my mentor in the Paranormal and other things too This was in 1973 I learned to meditate and how to open my crown chakra to take in vital forces which allowed me to do many things including healing others In addition I also met another middle aged guy at a Psychic Fair in Saratoga Springs New York He was a researcher in the arcane field of Kirlian Photography In this book the history of radionics is discussed some of the major influencers on that history how these devices are used for healing and even some plans for building

radionics devices My hope is that this book will give you a good grounding in radionics to learn to use it productively for your own efforts

**The Suppression of Truth in the United States and the World** Martin K. Ettington, In today's world we live in a culture of truth suppression This is true in representative democracies like the United States as well as full totalitarian dictatorships like Communist China This book covers many areas of major lies like Global Warming perverted doctrines taught in schools Politics News Suppression Communist China limitations in Spirituality deficit spending and problems with globalism There are many different types of truth suppression and as much as we would like to think that we live in an advanced culture and world this effort by different entities to suppress truth affects our lives negatively in many ways The most direct effect is that we live in fear of the future of our world which is a big lie This suppression also keeps us from fully realizing our spiritual natures and that we do have the ability to accomplish amazing things when we live with full honesty in our lives I believe that individuals are closest to a state of happiness when they live their lives in truth See my book *A New Paradigm of Truth and Happiness* for more information There are actions we can take to correct this situation but they are mass actions which need many persons involved to have a real effect A list of these actions are given later in this book

*18 Long Lived Communities around the World* Martin K. Ettington, This book is about communities and cities around the world where people live to very old ages It is divided into two groups Those communities who have the longest lived peoples in the world Lots of lifestyle and diet data is included for them The second group are another set of communities which have high average ages which people live to but are not quite the outliers that the first group is I've also tried to provide some general lifestyle and diet guidelines to give an idea of why these places are different for longevity purposes The first four communities were also profiled in my book *Diets and Lifestyles of the World's Oldest Peoples* 32 Longevity Recipes which goes into lot of details about these four locations including traditional recipes Overall I think you will get a better idea of what the reasons are why people live a long time in these locations around the world which may give you ideas about adapting your lifestyle and diets to have maximum longevity

*The Spiritual Enlightenment of an Engineer* Martin K. Ettington, I've written quite a few books about spirituality and my experiences and beliefs in our abilities to expand our consciousness through spiritual development practices meditation and the paranormal This book includes my experiences with paranormal abilities acquired from the spiritual development process and different enlightenment experiences Having been raised in a technical family and gone to engineering school my perspective is pretty unique since I developed both traditional technical knowledge of the world while I was also going through the spiritual development and enlightenment process There are many engineers and scientists who are also religious but I've found that technical people who are as deeply into spiritual enlightenment practices and paranormal experiences are pretty rare What I've found is that this dual background has given me more clarity about the world we live in and better objectivity in many cases regarding strange or unusual phenomena The theme of this book is to review how I went through this dual track system of learning in

my life to become both a traditional engineer and to have fairly adept knowledge of spiritual and paranormal experiences

**Strange Sightings on the Moon, Mars, and In Space** Martin K. Ettington, Most of my books on Aliens and UFOs are about evidence of them existing on Earth However there are also many unusual sightings in space which is the subject of this book These sightings cover the following locations UFOs flying around the International Space Station Bases and UFOs on the Moon Strange sightings on Mars taken by our Martian rovers In deep space elsewhere in the Solar System These pictures may or may not be real alien life or UFO technologies but they are fascinating none the less Some of the sightings like the face in Cydonia are just a result of our natural abilities to see living forms in many types of pictures But some may turn out to be real phenomena Certainly some of these sightings can't be anything other than real UFOs If you want to learn about strange sightings in the Solar System outside of Earth then this book is for you

**The Real Atlantis-In the Eye of the Sahara** Martin K. Ettington, There have been many books and movies about whether Atlantis really existed and where it was located Now we have a new candidate location which meets the criteria established by Plato much better than any of the other candidates A location which is the exact same size as the fabled city and is located by more than one ancient source The story of the Eye of the Sahara is truly amazing and once you read it you will become convinced like I am of this logically being the real location of the mythical city of Atlantis There are even ancient maps which show the location of Atlantis to be in the area of this Eye of the Sahara Lots of history and related information in this study of where Atlantis was really located

**Types of UFOs Observed in History** Martin K. Ettington, My goal in this book is to show the different types of UFOs reported throughout history and today I'm not trying to prove whether these ships are real or not I just thought that given the many thousands of sightings of UFOs there should be some commonalities between the sightings Some of the questions I want to answer include Are there any trends in these sightings Is there an evolution in the design of these vehicles over time Are there some common designs over time Also some of the UFOs sighted are likely fakes or secret projects built by the US government I tried to show that information too Just due to the number of stars in our galaxy I'm convinced that Aliens exist and have probably visited our planet thousands or even millions of years in the past in addition to visiting in the present This collection of historical photos drawings and descriptions should provide you with a narrative as to how these sightings have changed over time

**A Guide to Longevity Foods, Diets, and Supplements** Martin K. Ettington, There is great interest out there in what people can do to improve their longevity I've been writing books about longevity for fourteen years and I realized there was one topic I had not really covered in detail That topic is what are the foods and supplements we can take which will help make us healthy enough to lengthen our lives Improving individual longevity is not just about foods and supplements There are a lot of factors which all affect longevity so I have a chapter here which talks about my work The 10 Principles of Personal Longevity which covers those issues in more detail In addition there are some specific physical issues like telomeres inflammation and oxidative stress which also affect chronic diseases and therefore longevity and these are

discussed in detail I also think it is pertinent to see what long lived communities eat so I ve copied some of the key data and conclusions from my book on four long lived communities around the world to see what their diets are Some recipes of their traditional foods are also included Foods and supplements which have been known from historical times and today are discussed in detail for you to learn what the wisdom of the ages and science knows about the correct foods and supplements to eat After reading this book you will have new ideas about the food diets and supplements you can eat to help you live a much longer and healthier life

Creating Your Own Reality Martin K. Ettington, There are a lot of books written on the topic of visualization Mine is a little different As an engineer and experimenter of many paranormal events I ve got a different perspective enabled by my research and experience There are many subjects I ve studied that indicate that the mind really can affect our reality In this book I will review why my research and experience says that visualization really works and some lessons on how to do it The Reality we live in is much more malleable than we think and so why not set our goals and purposes to get that reality to work the way we want it Techniques included in this book include various visualization techniques and building your own vision board
