White Working Class, With a New Foreword by Mark Cuban and a New Preface by the Author Joan C. Williams,2019-11-05 It is really worth a read Former Vice President Joe Biden interviewed on Pod Save America Now in paperback with a new Foreword by Mark Cuban and a new Preface by the author White Working Class explains why so much of the elite s analysis of the white working class is misguided rooted in class cluelessness Joan C Williams described as having something approaching rock star status by the New York Times explains that many people have conflated working class with poor but the working class is in fact the elusive purportedly disappearing middle class They often resent the poor and the professionals alike But they don t resent the truly rich nor are they particularly bothered by income inequality Their dream is not to join the upper middle class with its different culture but to stay true to their own values in their own communities just with more money While white working class motivations are often dismissed as racist or xenophobic Williams shows that they have their own class consciousness White Working Class is a blunt bracing narrative that sketches a nuanced portrait of millions of people who have proven to be a potent political force For anyone stunned by the rise of populist nationalist movements wondering why so many would seemingly vote against their own economic interests or simply feeling like a stranger in their own country White Working Class will be a convincing primer on how to connect with a crucial set of workers and voters
