**Handbook of Climate Change Impacts on River Basin Management** Saeid Eslamian, Mir Bintul Huda, Nasir Ahmad Rather, Faezeh A. Eslamian, 2024-08-29 Climate change not only involves rising temperatures but it can also alter the hydro meteorological parameters of a region and the corresponding changes emerging in the various biotic or abiotic environmental features One of the results of climate change has been the impact on the sediment yield and its transport These changes have implications for various other environmental components particularly soils water bodies water quality land productivity sedimentation processes glacier dynamics and risk management strategies to name a few This volume provides an overview of the fundamental processes and impacts of climate change on river basin management and examines issues related to soil erosion sedimentation and contaminants as well as rainfall runoff modeling and flood mitigation strategies It also includes coverage of climate change fundamentals as well as chapters on related global treaties and policies

**Climate Rationality** Jason S. Johnston, 2021-08-19 Johnston unpacks and critiques the legal economic and scientific basis for precautionary climate policies pursued in the United States In doing so he reveals an alternative approach to climate change policy that would enable the US to efficiently adapt to a changing climate and radically reduce its greenhouse gas emissions Daily Bulletin of Simultaneous Weather Reports United States.
