In A Brief History of Gardening Harvard graduate and gardener Neil Fairbairn chronicles more than 8 500 years of gardening with wit and irreverence Fairbairn s gift for story telling is evident throughout this engaging glimpse at the history of seed sowing throughout the world beginning in 6500 B C to the year 2000 and beyond The book s nine chapters are arranged chronologically and are comprised of short informative entries covering a particular person event or movement important to gardening Readers will learn The first evidence of conservation dates from 2700 B C China where an agricultural document taught that mountains exhausted of forests are washed bare by torrents The Kama Sutra directed virtuous women in A D 350 to keep a garden perhaps to work up an appetite for the other activities detailed in the text England in 1597 did not take kindly to the American tomato believing it to be not only poisonous but also of ranke and stinking savor More than 250 full color photographs and illustrations grace the entries and each chapter contains a two page timeline that gives readers a sense of movement through history Pairing an elegant clean design with a lively tone A Brief History of Gardening is a beautiful and entertaining guide sure to be picked up again and again    A Little History of British Gardening Jenny Uglow,2012-10-31 Get out in your garden and discover the history hidden in the hedges Did the Romans have rakes Did the monks get muddy Did potatoes seem really really weird when they arrived on our shores Drawn from Jenny Uglow s own love for plants this lively potted history of gardening in Britain takes us on a garden tour from the thorn hedges around prehistoric settlements to the rage for ornamental grasses and outdoor rooms today Tracking down the ordinary folk who worked the earth from weeding women to florists as well as aristocrats and grand designers and famous plant hunters A Little History of British Gardening is brought to life by gorgeously vivid illustrations and Uglow s insightful wisdom Not only dealing with flowery meads grottoes and vistas landscapes and ha has parks and allotments Uglow explains for example how the Tudors made their curious knots how housewives used herbs to stop freckles how the suburbs dug for victory in World War II With a brief guide to particular historic or evocative gardens open to the public this is a book to put in your pocket when planning a crisp winter s day out but also to read in your armchair with a well earned glass of red after a hard day s graft in your own garden Enchanting stirringly evocative and fascinating Daily Mail This book will be a joy for any gardener Independent    **The Gardening Year Book and Garden Oracle** ,1897    **The Garden's Story** George H.
