**How South Africa Works** Jeffrey Herbst, Greg Mills, 2015-07-01 The overwhelming challenge that South Africa faces and has to date failed to address is unemployment which falls especially on African youths who were promised a better future after 1994. If the current unemployment challenge is not addressed it will be impossible to sustainably lift many millions of people out of poverty. *How South Africa Works* reviews the country's major economic achievements over the past two decades. Through numerous interviews with politicians, business leaders and analysts it examines the challenges and opportunities across key productive sectors including agriculture, manufacturing, services and mining, illustrative of the policy challenges that leaders face. It scrutinises the social grant and education systems to understand if South Africa has established mechanisms for people not only to escape destitution but be ready to be employed and identifies steps that some of South Africa's most notable entrepreneurs have taken to build world class enterprises. Recognising the essential challenge to cultivate more employers to employ people, *How South Africa Works* concludes by offering an agenda and active steps for greater competitiveness for government, business and labour.

**ICIE 2017 - Proceedings of the 5th International Conference on Innovation and Entrepreneurship** Dr Kamarulzaman Ab. Aziz, 2017 Proceedings of the 5th International Conference on Innovation and Entrepreneurship held in Cyberjaya, Malaysia on 26th-27th April 2017.

**How Long Will South Africa Survive?** R.W. Johnson, 2015-01-11 In 1977 Johnson's best selling *How Long Will South Africa Survive?* offered a controversial and highly original analysis of the survival prospects of apartheid. Now, after more than two decades of the ANC in government, he believes the question must be posed again. The big question about ANC rule, Johnson writes, is whether African nationalism would be able to cope with the challenges of running a modern industrial economy. Twenty years of ANC rule have shown conclusively that the party is hopelessly ill equipped for this task. Indeed, everything suggests that South Africa under the ANC is fast slipping backward and that even the survival of South Africa as a unitary state cannot be taken for granted. The fundamental reason why the question of regime change has to be posed is that it is now clear that South Africa can either choose to have an ANC government or it can have a modern industrial economy. It cannot have both.

**Reforming Health Care in the United States, Germany, and South Africa** Susan Giaimo, 2016-04-29 As countries confront new health care challenges in the 21st century, their health care systems reflect the problems and political settlements of an earlier age. Meeting these new challenges requires reform of existing health care system arrangements while reconciling the goals of equitable access to quality care at an affordable price. This book compares health care reforms in industrialized

nations and the Global South to uncover the similarities and differences in their problems and solutions It examines the struggle over the Affordable Care Act and its alternatives in the United States major health care reforms in Germany in the new century and South Africa s efforts to combat AIDS and construct a comprehensive health care system for all These particular reforms reflect the underlying configuration of politics in each country
