Dear Reader We always wonder that every sign in Vedic astrology has different meaning and results So how does the planet sitting in it will behave So in this book I am describing how Sun will give results in different zodiac signs in most possible and descriptive way The planet behavior changes along with the sign it sits in and give different results Every sign itself is a mystery and planet sitting in sign becomes more mysterious and gives results in very different pattern Planet is nothing but a cosmic energy which in particular location in zodiac during our birth impacts our entire life the way we think and the way we behave and also controls our emotions The glands in our brain reacts to this cosmic energy and creates a certain characteristic in our life patter and day to day life and we can understand this by understanding our horoscope and by checking which sign the planet is sitting and how it impacts our thinking and life I hope you will love this book and enjoy reading Regards Saket Shah 13 Sun Signs of the Zodiac Dr. Regina Atara Wead,2014-10-29 Using the Sidereal Zodiac like Nostradamus an astrologer and metaphysician shares her insight about the blending of Eastern and Western astrology in The Zodiac Conspiracy This book underscores the omission of Ophiuchus a major constellation that the Greeks left off the tropical zodiac wheel It includes a brief section on Ophiuchus the only constellation named after a real man named Imhotep The 13 Sun Signs of the Zodiac outlines the differences between popular tropical astrology that you read in the daily horoscopes and the science astronomy of sidereal astrology This book merges the sidereal and tropical systems to help us understand how the tropical zodiac represents who we are learning to be while the sidereal zodiac represents who we really are Rev Dr Martin Luther King Jr was really a Sagittarian The Seeker who was learning how to be a Capricorn goat climbing up the mountain to become The Achiever Jesus was probably born under the sign of Virgo to a virgin mother However he was really a Libra The Peacemaker who was learning how to be a Virgo The Selfless Servant All of this and much much more is explained in this extraordinary book13 Sun Signs of Zodiac *Understanding Sun Sign Astrology* Donette Smock,2005-10
Almost everyone s exposure to astrology begins by learning their sign or Sun Sign When someone asks what s your sign for

the first time you're likely to figure it out based on your birthday. Then you can look up interpretations for your Sun Sign as well as read your daily horoscope. The Sun Signs Aries through Pisces have a mythical connection to the constellations whose names correspond to the signs of the Zodiac. This sequence of signs in the Zodiac and the corresponding schedule of dates in the calendar year are perhaps the most widely known and available pieces of astrological information. When you read your horoscope it is based on the effects that the planets have on your Sun Sign while they are moving through the various areas of the sky. There are also sectors or houses the planets enter that have an effect on your Sun Sign. The purpose of this book is to provide the basics on Sun Sign Astrology and Sun Sign Horoscopes. Have you ever been confused by your horoscope stating something like when Jupiter enters your sign on the 24th you will or as Saturn enters your 7th house. Now you have a reference guide to understand what exactly those phrases mean. You can look up the planets' effect on the signs and the sectors or houses and truly understand Sun Signs. Sun Signs are fun and somewhat accurate, but I encourage you to look at the section **Beyond** at the back of the book to develop some understanding about the effect of full natal astrology.
