

The Inuksuk

Carole Dignard

The Inuksuk:

A Place called Nunavut Kim van Dam, 2008-12-31 In 1999 Nunavut Territory was created in the Canadian Arctic. The area is about 50 times as large as the Netherlands and is inhabited by a population of 30 000. 85% of the population is Inuit, the indigenous people in this area. The central questions in this research project are what place or regional identities are being ascribed to Nunavut by different groups of people from within and from outside the region and how do these identities work. In the process of the formation of the region, the territorial Government of Nunavut is an important actor in producing a regional identity that is based on the cultural identity of the Inuit, the Inuit Homeland. This official regional identity creates a symbolic unity that is important in linking people to the region and through which the land, the history and the people are united in a new territorial membership. However, there is no reason to assume that there is only one regional identity for Nunavut. Different individuals or groups of people from within and from outside the region, such as the people who live in one of the 25 communities and those who work for the multinational mining corporations or as tourist operators, are also involved in the production and reproduction of identities for Nunavut. They represent Nunavut, for example, as a place to live, a resource region, a wilderness or as a sustainable place. Nunavut Government also links these alternative identities to the area because, as a government, they are not only interested in protecting Inuit culture but also aim to modernize the economy in order to enhance prosperity and well-being. As such, the place identities are hybrid and identities that before were produced only by external actors are now also being produced by internal actors and vice versa. **Sister Wife** Shelley

Hrdlitschka, 2008-10-01 In the isolated rural community of Unity, the people of The Movement live a simple life guided by a set of religious principles and laws that are unique to them. Polygamy is the norm; strict obedience is expected and it is customary for young girls to be assigned to much older husbands. Celeste was born and raised in Unity yet she struggles to fit in. Perhaps it's because of Tavis, the girl who has come to live with them and entertains Celeste with forbidden stories, or Jon, the young man she has clandestine meetings with, or maybe it's the influence of Craig, the outsider she meets on the beach. Whatever it is, she struggles to accept her ordained life. At fifteen, she is repulsed at the thought of being assigned to an older man and becoming a sister wife, and she knows for certain she is not cut out to raise children. She wants something more for herself yet feels powerless to change her destiny because rebelling would bring shame upon her family. Celeste watches as Tavis leaves Unity followed by Jon and finally Craig, the boy who has taught her to think outside the box. Although she is assigned to a caring man, his sixth wife, she is desperately unhappy. How will Celeste find her way out of Unity? Torn from the headlines and inspired by current events, *Sister Wife* is a compelling portrait of a community where the laws of the outside world are ignored and where individuality is punished. *Tukiliit* Norman Hallendy, 2012-03-23 For many centuries Inuit and their ancestors have been building beautiful rock structures across the Arctic and sub-Arctic world for a wide variety of reasons.
