**The Crossing of the Visible** Jean-Luc Marion, 2004 Ranging across artists from Raphael to Rothko Caravaggio to Pollock *The Crossing of the Visible* offers both a critique of contemporary accounts of the visual and a constructive alternative According to Marion the proper response to the nihilism of postmodernity is not iconoclasm but rather a radically iconic account of the visual and the arts which opens them to the invisible

*Believing in Order to See* Jean-Luc Marion, 2017-04-03 Faith and reason especially in Roman Catholic thought are less contradictory today than ever But does the supposed opposition even make sense to begin with One can lose faith but surely not because one gains in reason Some in fact lose faith when reason is not able to make sense of the experiences of our lives We very quickly realize that reason does not understand everything Immense areas remain incomprehensible and irrational which we abandon to belief and opinion Soon we definitively renounce thinking what that has been excluded from the realm of the thinkable Ideological nightmares arise from this slumber of reason Thus the separation between faith and reason too quickly taken as self evident and even natural is born from a lack of rationality an easy capitulation of reason before what is supposedly unthinkable Rather than lose faith through excessive rationality we often lose rationality because faith is too quickly excluded from the realm that it claims to open that of revelation We lose reason by losing faith Examining such topics as the role of the intellectual in the church the rationality of faith the infinite worth and incomprehensibility of the human the phenomenality of the sacraments and the phenomenological nature of miracles and of revelation more broadly this book spans the range of Marion's thought on Christianity Throughout he stresses that faith has its own rationality structured according to the logic of the gift that calls forth a response of love and devotion through kenotic abandon

**Stigmatics and Visual Culture in Late Medieval and Early Modern Italy** Cordelia Warr, 2025-12-05 This book places the discourse surrounding stigmata within the visual culture of the late medieval and early modern periods with a particular focus on Italy and on female stigmatics Echoing and to a certain extent recreating the wounds and pain inflicted on Christ during his passion stigmata stimulated controversy Related to this were issues that were deeply rooted in contemporary visual culture such as how stigmata were described and performed and whether or how it was legitimate to represent stigmata in visual art Because of the contested nature of stigmata and because stigmata did not always manifest in the same form sometimes invisible sometimes visible only periodically sometimes miraculous and sometimes self inflicted they provoked complex questions and reflections relating to the nature and purpose of visual representation
