**Rereading the Black Legend** Margaret R. Greer, Walter D. Mignolo, Maureen Quilligan, 2008-09-15 The phrase The Black Legend was coined in 1912 by a Spanish journalist in protest of the characterization of Spain by other Europeans as a backward country defined by ignorance superstition and religious fanaticism whose history could never recover from the black mark of its violent conquest of the Americas Challenging this stereotype Rereading the Black Legend contextualizes Spain's uniquely tarnished reputation by exposing the colonial efforts of other nations whose interests were served by propagating the Black Legend A distinguished group of contributors here examine early modern imperialisms including the Ottomans in Eastern Europe the Portuguese in East India and the cases of Mughal India and China to historicize the charge of unique Spanish brutality in encounters with indigenous peoples during the Age of Exploration The geographic reach and linguistic breadth of this ambitious collection will make it a valuable resource for any discussion of race national identity and religious belief in the European Renaissance

This book examines the evolution of British Irish relations since 1921 and applies theories from political and social sciences including international relations to the Irish Northern Irish case The book includes the generation and analysis of primary data on violence and constitutional debate the analysis of primary sources such as state papers and elite interviews with British and Irish officials representatives of constitutional political parties in Northern Ireland and leaders and activists of republican and loyalist parties organisations Part 1 looks at how the attempt to regulate the Irish nationalist challenge to the British state through dominion status for the Irish Free State and partition impacted on governance in both jurisdictions The re opening of the Northern Irish Question in the late 1960s is then analysed to demonstrate the continued primacy of opposing claims to national self determination and their impact on subsidiary levels of

conflict The final part covering the year 1985 to the present then demonstrates how the relative equalization of national status reflected in the bi national inter governmental relationship has been successful in regulating conflict by integrating vertically the bi nationality at state governmental and societal levels Finally implications of the British Irish approach are developed as contributions to the comparative theory and practice of ethno national conflict regulation
