Antony Quinn Financial Times Homework is wonderful Geoff Dyer writing which we've all learned to crave something to delight and to move us and to edify us on every page I find him an irresistible writer Richard Ford A portrait of a young boy who keeps passing exams and of a changing England in the 1960s and 1970s The only child of a sheet metal worker and a dinner lady who worked at the canteen of the local school Geoff Dyer grew up in a world shaped by memories of the Depression and the Second World War But far from being a story of hardship overcome this loving memoir is a celebration of opportunities afforded by the postwar settlement of which the author was an unconscious beneficiary The crux comes at the age of eleven with the exam that decided the future of generations of British schoolkids secondary modern or the transformative possibilities of grammar school One of the lucky winners Dyer goes to grammar school where he develops a love of literature and beer and prog rock Mapping a path from primary school through the tribulations of teenage sport, gig going, romantic fumbling, fights well, getting punched in the face and other misadventures with comic affection Homework takes us to the threshold of university where Dyer gets the first intimations that a short geographical journey just forty miles might extend to the length of a life Recalling an eroded but strangely resilient England Homework traces in perfectly phrased and hilarious detail roots that extend into the deep foundations of class society
