## **The Judgement Of Paris:**

*Rubens and the Judgement of Paris* Fiona Healy, 1997 The Judgement of Paris the tale of the shepherd prince who gave Venus the prize in a beauty competition was variously treated by classical writers and became a favourite theme for artists No painter seems to have responded to the ancient story with more intelligence and enthusiasm than Peter Paul Rubens who devoted at least eight pictures to it A Judgement of Paris marks every stage in Rubens career so that the present survey which includes familiar and unfamiliar works allows an insight into his entire artistic development Since his illustrations of the subject were intended for a variety of contexts this study also addresses many aspects of Rubens s practice and production as well as touching on his later reputation Rubens s response to the theme is also seen in relation to earlier literary and pictorial tradition Paris s decision had set a problem for moralists for his choice had led indirectly to the onset of the Trojan War Some commentators held that the young man who had two other goddesses to choose from should have preferred Minerva patron of learning or at least had opted sensibly for wealth in the person of Juno Allegorical readings has some influence on the depiction and interpretation of the theme in the fifteenth and sixteenth centuries It is shown how Rubens came to favour the Venetian artistic convention which focussed on the moment prior to Paris s decision thus effectively rejecting the interpretation of the Judgement as a moral condemnation Rubens came to see the myth as a universal image of the problem of choice But also more specifically he seems to have associated Paris with the artist as arbiter of beauty the final theme explored in this illuminating book
