**The Interstate Commerce Commission** Joshua Bernhardt,1923      **Interstate Commerce Commission** Joshua Bernhardt,2010      *The Best Transportation System in the World* Mark H. Rose,Bruce Edsall Seely,Paul F. Barrett,2006

From 1920 to the mid 1990s American transportation in the form of railroads trucks and airlines was simply a creature of politics and public policy In brief the markets for rail truck and airlines were not natural entities but had been created through hard fought political contests full time lobbying and unceasing litigation Between 1940 and the late 1970s moreover leaders of rail truck and airline firms lobbied and litigated to protect the workings of this regulatory regime In the mid 1950s President Eisenhower asked Congress to award railroad executives authority to modify prices and service Eisenhower was concerned about a railroad industry in decline During the 1960s President Johnson sought broad deregulation of rail trucks and airline firms Johnson wanted another device to fine tune the economy In the 1970s Presidents Nixon Ford and Carter sought to deregulate transportation with a view toward reversing stagflation Between 1978 and 1980 Congress and President Carter approved deregulation of airlines trucking and railroads Carter aide Mary Schuman played a crucial role in bringing about airline deregulation For all the market talk that surrounded transportation politics before and after 1980 however officials of the American state had been and remained the principal agents creating those markets **BOOK JACKET**      **The American Political Economy** Marc Allen Eisner,2013-12-17 Policy debates are often grounded within the conceptual confines of a state market dichotomy as though the two existed in complete isolation In this innovative text Marc Allen Eisner portrays the state and the market as inextricably linked exploring the variety of institutions subsumed by the market and the role that the state plays in creating the institutional foundations of economic activity Through a historical approach Eisner situates the study of American political economy within a larger evolutionary institutional framework that integrates perspectives in American political development and economic sociology This volume provides a rich understanding of the complexity of U S economic policy explaining how public policies become embedded in bureaucracy and reinforced by organized beneficiaries and public expectations This path dependent layering process helps students better understand the underlying historical dynamics which provide a clearer sense of the constraints faced by policymakers now and in the future The revisions to the second edition include Complete rewrite of the chapter on the recent financial crisis adding in commentary on the debt ceiling the fiscal cliff and other recent events New material added and existing material updated in the chapter discussing the two welfare states Extensive updates to the coverage of the global economy Expanded and updated discussion of Obama's economic policies Updates to figures and data throughout the text      **De economie van list en bedrog** George A. Akerlof,Robert J. Shiller,2017-04-07 Al sinds Adam Smith luidt een van de basisregels van de economie dat vrije markten ons als door een onzichtbare hand voorzien van materieel welzijn In *De economie van list en bedrog* plaatsen Nobelprijswinnaars George Akerlof en Robert Shiller bij dit idee een paar fundamentele vraagtekens Zolang er winst kan worden gemaakt spelen

bedrijven via manipulatie en misleiding systematisch in op de psychologische zwakheden en onwetendheid van ons als consument De vrije markt is niet inherent goedaardig en leidt niet vanzelf tot algemeen heil Integendeel hij zit vol valkuilen trucs en prikkels om ons in de val te lokken Akerlof en Shiller illustreren dit idee met tientallen verhalen waaruit blijkt dat list en bedrog iedereen raakt in bijna alle facetten van het leven Meer dan ooit worden we door reclames verleid We geven ons geld uit tot op de laatste cent en vragen ons dan af hoe we de rekeningen voor de volgende maand moeten betalen We betalen te veel voor sportscholen auto's huizen en creditcards Farmaceutische bedrijven brengen dure ingenieuze producten op de markt waar we weinig aan hebben en die soms ronduit gevvaarlijk zijn De economie van list en bedrog geeft fascinerende details hoe manipulatie en misleiding in al deze gebieden werkzaam zijn Daarnaast vertelt het boek over mensen die zich tegen economisch bedrog verzetten en hoe dat bedrog met meer kennis hervormingen en wetgeving kan worden teruggedrongen
