The Iron Puddler James J. Davis,2015-07-19 Excerpt from *The Iron Puddler My Life in the Rolling Mills and What Came of It* The man whose life story is here presented between book covers is at the time of writing only forty eight years old When I met him many years ago he was a young man full of enthusiasm I remember saying to him then With your enthusiasm and the sparkle which you have in your eyes I am sure you will make good Why should so young a man one so recently elevated to official prominence write his memoirs That question will occur to those who do not know Jim Davis His elevation to a Cabinet post marks not the beginning of his career but rather is the curtain rise on the second act of one of those dramatic lives with which America has so often astounded the world Bruised and bleeding in a southern peon camp where he and other hungry men had been trapped by a brutal slave driver he drank the bitter cup of unrequited toil And from this utter depth in less than thirty years he rose to the office of secretary of labor About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works *The Iron Puddler* James J.

The Fall of the House of Labor David Montgomery,1987 This book studies the changing ways in which American industrial workers mobilised concerted action in their own interests between the abolition of slavery and the end of open immigration from Europe and Asia Sustained class conflict between 1916 and 1922 reshaped governmental and business policies but left labour largely unorganised and in retreat The House of Labor so arduously erected by working class activists during the preceeding generation did not collapse but ossified so that when labour activism was reinvigorated after 1933 the movement split in two These developments are analysed here in ways which stress the links between migration neighbourhood life racial subjugation business reform the state and the daily experience of work itself *Blackie's Modern Cyclopedia of Universal Information ...* ,1891 *The New Cabinet Cyclopædia and Treasury of Knowledge* ,1892

Mastering Iron Anne Kelly Knowles,2013-01-15 Veins of iron run deep in the history of America Iron making began

almost as soon as European settlement with the establishment of the first ironworks in colonial Massachusetts Yet it was Great Britain that became the Atlantic world's dominant low cost high volume producer of iron a position it retained throughout the nineteenth century It was not until after the Civil War that American iron producers began to match the scale and efficiency of the British iron industry In *Mastering Iron* Anne Kelly Knowles argues that the prolonged development of the US iron industry was largely due to geographical problems the British did not face Pairing exhaustive manuscript research with analysis of a detailed geospatial database that she built of the industry Knowles reconstructs the American iron industry in unprecedented depth from locating hundreds of iron companies in their social and environmental contexts to explaining workplace culture and social relations between workers and managers She demonstrates how ironworks in Alabama Maryland Pennsylvania and Virginia struggled to replicate British technologies but in the attempt brought about changes in the American industry that set the stage for the subsequent age of steel Richly illustrated with dozens of original maps and period art work all in full color *Mastering Iron* sheds new light on American ambitions and highlights the challenges a young nation faced as it grappled with its geographic conditions
