The X-Files and Literature Sharon R. Yang, 2009-10-02 The X Files and Literature Unweaving the Story Unraveling the Lie to find the Truth provides an innovative and valuable exploration of the groundbreaking television program Although much academic work has been devoted to the social psychological and spiritual significance of The X Files until this collection none has fully addressed the series rich adaptation of literature to interrogate our perception definition or recounting of the truth This collection not only unveils new twists and insights into expected connections between The X Files and Gothic writers or with its modernist and post modernist slants on narrative plot and characterization The X Files and Literature also delves into some unexpected literary sources shaping the series such as the Arthurian quest Catholic and Biblical mythology folkloristics and James Fennimore Cooper and the vanishing American mythos This collection of essays covers both how The X Files works with literature s own constantly morphing definition and portrayal of truth through form and content as well as how the television program may or may not subvert our own contradictory expectations and distrust of literature s providing us with enlightenment As television becomes more and more literary with shows like Lost and Gilmore Girls sending us off to the bookstore and the library so we might read them more carefully a book like The X Files and Literature is welcome indeed Sharon R Yang s diverse collection on one of Nineties TV s richest texts finds the truth of the gothic and the Arthurian and the folkloric of the postmodern and the metafictional of Poe Pynchon Cooper Nabokov and Tennyson not just out there but in the perhaps too complicated narrative of the perpetually frustrated quests of Mulder and Scully Valuable in itself as an intellectual exercise its real worth may come when we put the book down and return smarter better readers to the primary text David Lavery Co Editor Deny All Knowledge Investigating The X Files Sharon Yang s X Files collection deals with an important subject addressed by thoughtful writers The idea that television can be seen as a branch of literature is certainly sustained by The X Files and the contributors to this volume succeed in making the case Brian Hauser on Fenimore Cooper Cary Jones on Mary Shelley Tamy Burnett on Poe Thomas Argiro on Pynchon Matthew VanWinkle on Tennyson these and more explore the connections with The X Files not only in terms of sources but also themes and techniques Both students of television and literature will want to own this book Rhonda V Wilcox Ph D Professor

of English Gordon College Barnesville The Island of Dr. Moreau H. G. Wells, Dr. John L. Flynn, 2014-06-03 A cautionary tale of the horrors that can ensue when man experiments with nature from the father of science fiction H G Wells A lonely island in the Pacific The sinister scientist who rules it And the strange beings who dwell there This is the scenario for H G Wells s haunting classic one of his most intriguing and visionary novels Living in the late nineteenth century and facing the impact of Darwin s theory of evolution Wells wrote this chilling masterpiece about the characteristics of beasts blurring as the animals turn into men Dr Moreau a scientist expelled from his homeland for his cruel vivisection experiments finds a deserted island that gives him the freedom to continue torturous transplantations and create hideous creatures with manlike intelligence But as the brutally enforced order on Moreau s island dissolves the true consequences of his experiments emerge and his creations revert to beasts more shocking than nature could devise A genius of his time H G Wells foresaw the use of what he called the atom bomb the practice of gene splicing and men landing on the moon Now when these have become part of everyday life his dark fable serves as a compelling reminder of the horrors that reckless experiments with nature can produce With an Introduction by Nita A Farahany and an Afterword by Dr John L Flynn *Monsters and Monstrosity* Daniela Carpi, 2019-06-17 Every culture knows the phenomenon of monsters terrifying creatures that represent complete alterity and challenge every basic notion of self and identity within a cultural paradigm In Latin and Greek culture the monster was created as a marvel appearing as something which like transgression itself did not belong to the assumed natural order of things Therefore it could only be created by a divinity responsible for its creation composition goals and stability but it was triggered by some in or non human action performed by humans The identification of something as monstrous denotes its place outside and beyond social norms and values The monster evoking transgression is most often indistinguishable from reactions to the experience of otherness merging the limits of humanity with the limits of a given culture The topic entails a large intersection among the cultural domains of law literature philosophy anthropology and technology Monstrosity has indeed become a necessary condition of our existence in the 21st century it serves as a representation of change itself In the process of analysis there are three theoretical approaches psychoanalytical representational ontological The volume therefore aims at examining the concept of monstrosity from three main perspectives technophobic xenophobic superdiversity Today s globalized world is shaped in the unprecedented phenomenon of international migration The resistance to this phenomenon causes the demonization of the Other seen as the antagonist and the monster The monster becomes therefore the ethnic Other the alien To reach this new perspective on monstrosity we must start by examining the many facets of monstrosity also diachronically from the philological origin of the term to the Roman and classical viewpoint from the Renaissance medical perspective to the religious background from the new filmic exploitations in the 20th and 21st centuries to the very recent ethnological and anthropological points of view to the latest technological perspective dealing with artificial intelligence Monstrous Anatomies Raul Calzoni, Greta Perletti, 2015-09-16

The book explores the significance and dissemination of monstrous anatomies in British and German culture by investigating how and why scientific and literary representations and descriptions of abnormal bodies were proposed in the late Enlightenment during the Romantic and the Victorian Age. Since the investigations of late 18th Century natural sciences the fascination with monstrous anatomies has proved crucial to the study of human physiology and pathology. Featuring essays by a number of scholars focusing on a wide range of literary texts from the long nineteenth century and foregrounding the most important monstrous anatomies of the time, this book intends to offer a significant contribution to the study of the representations of the abnormal body in modern culture.

Poetics of the Hive Cristopher Hollingsworth, 2005-04
Cris Hollingsworth's waggle dance after scouting the rangiest field of literature: Virgil and Homer down to Milton and Swift on to Plath and Byatt leads you to where the nectar hides. He wisely roams extracting an anthology of poetry, prose, psychology, history, most of all perception that tops the bee's knees. Paul West, author of *The Secret Life of Words*, Hollingsworth's wide ranging exploration of the image of the hive is impressive. *Poetics of the Hive* and its panoply of references cannot fail to enrich university classrooms especially those devoted to both the visual arts and literature. Dore Ashton, author of *A Fable of Modern Art*, Cris Hollingsworth's *Poetics of the Hive* is complex even daring in argument. I'm even more impressed by his skill at an increasingly rare critical art: the educing of argument from careful, often brilliant, analytical reading of literary texts. Thomas R. Edwards, executive editor of *Raritan: A Quarterly Review*, A study to delight the passionate reader. *Poetics of the Hive* tells the story of the evolution of the insect metaphor from antiquity to the multicultural present. An experiment in the evolutionary biology of artistic form. *Poetics of the Hive* freshly examines classic works of literature offering a view of poetic creation that complicates our ideas of the past and its formative role in modern consciousness and world literature. In the first part of this lyrical synthesis of rhetoric, visual and postmodern theory and cognitive science, Cristopher Hollingsworth reveals the structure behind his metaphor, redefining it as an aesthetically and philosophically potent tableau that he calls the Hive. He traces the Hive's evolution in epic poetry from Homer to Milton which establishes antithetical but complementary images of angelic and demonic bees that Swift, Mandeville and Keats use variously to debate classical versus emerging ideas of the individual's relationship to society. But the Hive becomes fully psychologized. Hollingsworth argues only when its use by Conrad and Wells to explore Europe's colonial imagination of the Other is transformed by Kafka and Sartre into competing symbols of the modern self's existential condition. Cristopher Hollingsworth is an assistant professor of English at St John's University, Staten Island.

Contemporary Gothic and Horror Film Keith McDonald, Wayne Johnson, 2021-06-15
This book looks at contemporary Gothic cinema within a transnational approach. With a focus on the aesthetic and philosophical roots which lie at the heart of the Gothic, the study invokes its literary as well as filmic forebears by exploring how these styles informed strands of the modern filmic Gothic: the ghost narrative, folk horror, the vampire movie, cosmic horror and finally the zombie film. In recent years the concept of transnationalism has transcended

its original boundaries perhaps excessively in the minds of some Originally defined in the wake of the rise of globalisation in the 1990s as a way to study cinema beyond national boundaries where the look and the story of a film reflected the input of more than one nation or region or culture It was considered too confining to study national cinemas in an age of internationalization witnessing the fusions of cultures and post colonialism exile and diasporas The concept allows us to appreciate the broader range of forces from a wider international perspective while at the same time also engaging with concepts of nationalism identity and an acknowledgement of cinema itself It also facilitated studies to focus on notions of hybridity where terms were not fixed but were constantly shifting and mobile The central idea of the book is that after horror Gothic film was dragged into disrepute by the rise of torture porn and endless North American remakes a set of international filmmakers are seeking to emphasize the aesthetic artistic and philosophical potential of the Gothic Such filmmakers include Guillermo del Toro *Crimson Peak* Ana Lily Amirpour *A Girl Walks Home Alone at Night* Park Chan wook *The Handmaiden* Stoker Tomas Alfredson *Let the Right One In* Wim Wenders *Only Lovers Left Alive* Ben Wheatley *A Field in England* Jane Campion *Top of the Lake* and Carol Morley *The Falling* Although written in an accessible manner the book incorporates theory and engages extensively into research to tap into key developments in Gothic studies transnationalism fandom and genre fiction and transmedia exchanges bringing these together along with popular culture and associated phenomena
