## **The Japanese Achievement:**

**The Japanese Achievement** Hugh Cortazzi, 1991      Japan Albert M. Craig, 2015-03-08 Among the leading specialists on Japan the authors both Japanese and Western represent a range of disciplines from economics history and political science to sociology anthropology psychiatry and literary criticism Some of the essays draw comparisons with China or Korea some with England Europe or America and some with countries of the Third World By showing us how the Japanese experience relates to that of other contexts the authors provide us with important insights into Japan as well as into other societies undergoing a modern transformation Originally published in 1979 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Modernization and Stress in Japan Toyomasa FusÉ, 1975      *Socialization for Achievement* George A. De Vos, 1975

*The Japan Year Book* Katsuji Inahara, 1935 Includes list of clubs societies associations etc      **The Japan Year Book**, 1934 Includes sections Who's who in Japan Business directory etc      **This War Against Japan ...** Ian Morrison, 1944      **A Cross-Cultural Comparison of the American and Japanese Educational Systems**, 1993-05 Presents a profile of the Japanese educational system and compares and contrasts it with the American system The objective is not to advocate the replication of the Japanese educational system and practices but to promote a better understanding of the strengths and weaknesses of both systems Charts and figures      **Human Assessment: Cognition and Motivation** S.K. Newstead, S.H. Irvine, P.L. Dann, 1986-05-31 Proceedings of the NATO Advanced Study Institute Athens Greece December 10-20 1984

*Education and Training in Japan* Thomas P. Rohlen, Christopher Bjork, 1998 This collection written by Japanese and foreign scholars represents an inclusive cross section of the most important work in key areas of this field Topics include the impact of Japanese education and training on Japan's economy and culture the Japanese influence on the East Asian approach to education in comparison with the educational systems of Korea Taiwan Singapore and Hong Kong Japan's promotion of learning organizations and Knowledge workers for the Information Age      *The Ecological Transition* John W. Bennett, 2017-09-29 Written during the height of the ecology movement The Ecological Transition is a stunning interdisciplinary work It combines anthropology ecology and sociology to formulate an understanding of cultural environmental relationships While anthropologists have been studying relationships between humans and the physical environment for a very long time only in the last thirty years have questions inherent in these relationships broadened beyond description and classification For example the concept of environment has been extended beyond the physical into the social Although anthropologists have adopted many of the concepts that Bennett develops in the book he also feels that

the central issues have never been addressed either by anthropologists or by people in related disciplines The most important of these in Bennett s opinion is the failure to incorporate a respect for the environmental in contemporary culture which would allow making exceptions in certain human practices in order to protect the environment His point in *The Ecological Transition* is that a basic cultural change in modern civilization is necessary to achieve this end Both a theoretical and a practical work *The Ecological Transition* emphasizes the relationships between human culture the physical environment technology and social policy *The Ecological Transition* is a challenging volume that makes us face the consequences of human behavior in the modern world its effect on pollution natural resources agriculture the economy and population to name just a few areas The book remains a significant contribution to the discourse on social economic and environmental problems While the book was first published in 1976 it still reads as a contemporary tract
