Fowler, 2014-07-15 Michael D Fowler presents an interdisciplinary approach to investigating the sound world of traditional Japanese gardens by drawing from the diverse fields of semiotics acoustic ecology philosophy mathematical modelling architecture music landscape theory and acoustic analysis Using projects ranging from data visualisations immersive sound installations algorithmically generated meta gardens and proto architectural form finding missions as creative paradigms the book offers a new framework for artistic inquiry in which the sole objective is the generation of new knowledge through the act of spatial thinking **The Japanese garden...** Teiji Itō, 1972 *Japan* Frank Joseph Shulman, 1989 Revealing the Japanese Garden Sadahisa Katō, 2003 **Mirei Shigemori - Rebel in the Garden** Christian Tschumi, 2020-08-10 Mirei Shigemori had a major impact on the development of Japanese landscape architecture in the twentieth century Active from the 1920s he founded the Kyoto Garden Society in 1932 In 1939 he designed his own first masterpiece the garden at the main hall of the T fuku ji temple From then on he designed 240 gardens all over Japan until his death in 1975 amongst the most famous are the Tenrai an tea garden 1969 and the Matsuo Taisha garden 1975 The main characteristic of his gardens is that they respect tradition and at the same time depart from conventional paradigms by opening up to the influence of Western modernism with its own language The first part of the book covers Shigemori's life and factors that influenced his work The second part contains a detailed illustration of 17 gardens The book is published as a new and revised edition

Delmas-Glass, 1998 Tradition of Japanese Garden Sutemi Horiguchi, 1962 Japan Spotlight, 2005 *Occasional Papers*, 1989 *Shinkenchiku*, 1985 **Quiet Gardens** Susan Bowden-Pickstock, 2009-06-11 Quiet Gardens is an exploration of horticulture as a medium for meaning and for spirituality In an increasingly secular age when absolute values are taboo political correctness reigns supreme and our lives orbit Planet Consumer we need experiences to balance the emphasis on material acquisitions Internationally tensions are

running high in the global village and environmental issues are at the top of the agenda The shadow of terrorism emphasises ideological differences but it also draws together those living underneath it inter faith and ecological conversations have become necessities rather than luxuries In this climate with the yearning for experience and our new understanding of collective responsibility the spiritual dimension can flourish but the desire to pursue the spiritual manifests itself not in traditional or institutionalised religion but in new ways This book describes a journey that seeks to re investigate mankind s relationship with nature and through this an understanding of what is spiritual The Bible begins with the story of creation and of God walking with the man and the woman in the garden in the cool of the day For many enjoying and or making a garden is both a connection with the wider environment and a link to that which is beyond ourselves and the book includes a section on the Christian charity the Quet Garden Trust featuring some of its unusual and remarkable gardens From conversations with three leading garden thinkers and creators Charles Jencks Beth Chatto and Sir Roy Strong the journey takes us on a path of exploration and discovery via Buddhist Ba hai and Islamic gardens to the making of an inter faith garden which won a medal at the Chelsea Flower Show It shows us that the relationship between meaning spirituality and horticulture transcends cultural and religious differences and offers hope for the future
