The Kamikazes:

The Kamikaze Campaign 1944-45 Mark Lardas, 2022-05-26 An illustrated history of how Japan devised and launched a new kind of air campaign in late 1944 the suicidal assaults of the kamikaze units against the approaching Allied fleets As summer changed to autumn in 1944 Japan was losing the war Still unwilling to surrender Japan's last hope was to try to wear down US resolve enough to reach a negotiated settlement Extraordinary measures seemed necessary and the most extraordinary was the formation of Special Attack Units known to the Allies as the kamikazes The concept of organized suicide squadrons was first raised on June 15 1944 By August formations were being trained These formations were first used in the October 1944 US invasion of the Philippine Islands where they offered some tactical success The program was expanded into a major campaign over the rest of the Pacific War seeing a crescendo during the struggle for Okinawa in April through May 1945 This highly illustrated history examines not just the horrific missions themselves but the decisions behind the kamikaze campaign how it developed and how it became a key part of Japanese strategy Although the attacks started on an almost ad hoc basis the kamikaze soon became a major Japanese policy By the end of the war Japan was manufacturing aircraft specifically for kamikaze missions including a rocket powered manned missile A plan for a massive use of kamikazes to defend the Japanese Home Islands from invasion was developed but never executed because of Japan's surrender in August 1945 Packed with diagrams maps and 3D reconstructions of the attacks this book also assesses the Allied mitigation techniques and strategies and the reasons and the degree to which they were successful **Divine Thunder; the Life and**

Death of the Kamikazes Bernard Millot, 1971 Describes the origins and devastating attacks of the Japanese suicide pilots and their planes during World War II Topics discussed include Bushido Code Great Divine Mission Admiral Arima's Example Yamato Unit Shikishima Unit Admiral Onishi's Victory Iwo Jima The Tan operation Ohka Koryu Kairyu Kaiten Torpedo Kikumizu Unit Kongo Unit Kaitens at Iwo Jima Shinyo Kikusui Forces Tokubetsu Units Operatino Ten go Kikusui Assaults Tokubetsu Units End of Okinawa Tsurugi Nakajima Kikka Baika Strange Shinryu Admiral Ugaki's Sacrifice Onishi's End

The Kamikazes Edwin Palmer Hoyt, 1983 Here is a powerful incisive portrait of the men who carried out the Japanese suicide missions during the Pacific campaign of World War II The story of these superbly trained fiercely loyal and recklessly courageous pilots is drawn with rare breadth and dimension a brilliant recreation of one of war's most surreal and frightening episodes Kamikaze Adrian Stewart, 2020-07-30 In this fascinating book the author examines the Japanese concept of Kamikaze the deliberate self sacrifice of life in the cause of victory This attitude while incomprehensible to their American and European enemies has its roots in the samurai tradition of fighting for their master or nation regardless of personal safety By late 1944 the Japanese had already proved themselves fanatical but the actions of the Kamikaze Corps of pilots from the Leyte Gulf battle onwards took matters to a new level Allied forces were shocked to find themselves the subject of widespread deliberate suicide attacks by pilots These continued during the invasion of the Philippines in early

1945 and reached a climax during the Battle of Okinawa from 1 April to June 1945. In total over 1000 kamikaze airmen perished. Graphic description of these suicide attacks and the resulting loss of life and ships litter this revealing and shocking book. The author's in depth study of the historic and cultural reasons for this seemingly reckless courage is important and illuminating. Kamikaze Attacks of World War II Robin L. Rieley, 2010. This book details more than 400 kamikaze attacks performed by Japanese aircraft, manned torpedoes, suicide boats and suicide swimmers against U.S. ships during World War II. Part One focuses on the traditions, development and history. Part Two details the kamikaze attacks on ships. Appendices list all of the U.S. ships suffering kamikaze attacks. Provided by publisher. The Kamikazes Charles River Charles River Editors, 2018-02-24. Includes pictures. Includes diary entries and other accounts written by kamikaze pilots. Includes a bibliography for further reading. One of the most fascinating aspects of World War II was Japan's use of suicide pilots known around the globe as kamikazes, though the Japanese referred to them as Tokubetsu kōgekitai (Special Attack Units). Translated as God Wind, Divine Wind, and God Spirit, kamikazes would sink 47 Allied vessels and damage over 300 by the end of the war, but the rise in the use of kamikaze attacks was evidence of the loss of Japan's air superiority and its waning industrial might. This method of fighting would become more common by the time Iwo Jima was fought over in early 1945 and it was especially prevalent during the invasion of Okinawa in April 1945. The privilege of being selected as a kamikaze pilot played directly into the deep-seated Japanese mindset of death before defeat. The pilot training manual assured each kamikaze candidate that when they eliminated all thoughts of life and death, fear of losing the earthly life can be easily overcome. Still, not all cases of those chosen to be kamikazes were equally noble. Recruits were trained with torturous regimens or corporal punishment and stories of mental impairment caused by drugs or saki abound. Some were described as tottering and dazed, being carried to their planes by maintenance officers and forcibly pushed in if they backed down. Pilots who could not find their targets were told to turn around and spare their own lives for another day, but if a pilot returned nine times, he was to be shot. At the moment of collision, he was instructed to keep his eyes open at all times and to shout Hissatsu (clear kill). Altogether, nearly 4,000 kamikaze pilots died in combat between October 1944 and August 1945, and about one in seven managed to hit his target. At their peak, they did far more damage to the American Navy than did conventional air attacks, and they undoubtedly placed a significant new obstacle in the path of the American forces slowly encircling the Japanese home islands. However, the widespread use of kamikaze tactics darkened and hardened attitudes toward Japan within the American military and helped to set the stage for the total war on Japanese civilians that the American military waged in the closing months of the war. The Marine Corps Gazette noted the ruthless atrocities by the Japanese throughout the war had already brought on an altered behavior deemed so by traditional standards by many Americans, resulting in the desecration of Japanese remains, but the Japanese tactic of using the Okinawan people as human shields brought about a new aspect of terror and torment to the psychological capacity of the Americans. As one sailor aboard the USS Miami recalled about kamikaze attacks at Okinawa:

They came in swarms from all directions The barrels of our ship s guns got so hot we had to use firehoses to cool them down The kamikazes were the most effective weapon the Japanese had in terms of sinking ships but they only appeared in the final year of the war The fact that Japan s military leadership concluded it was both necessary and justified to establish special units of pilots trained to sacrifice their own lives by crashing their planes into enemy vessels was a mark of their own desperation In the heat of battle individual soldiers occasionally risked certain or near certain death to protect their comrades or advance their mission but organized units devoted to suicide tactics were virtually unknown before 1944 They appeared only once the course of the war had turned decidedly against the Japanese The Kamikazes chronicles the history of Japan s famous suicide pilots and explains when why and how Japan resorted to their use near the end of war Along with pictures of important people places and events you will learn about the kamikazes like never before **The Last Kamikaze** Edwin P. Hoyt,1993-01-21 Vice Admiral Ugaki who was in charge of defending the Japanese homeland kept a detailed diary of the Japanese Navy s efforts during WWII from Pearl Harbor to Midway to the defense of the home islands He became the last kamikaze after the Japanese surrender on August 15 **MacArthur's Airman** Thomas E. Griffith,1998 Thomas Griffith offers a critical assessment of George C Kenney s numerous contributions to MacArthur s war efforts He depicts Kenney as a staunch proponent of airpower s ability to shape the outcome of military engagement and a commander who shared MacArthur s strategic vision **The Rape of the Mind** Joost Abraham Maurits Meerloo,1956 Since 1933 when a completely drugged and trial conditioned human wreck confessed to having started the Reichstag fire in Berlin Dr Joost A M Meerloo has studied the methods by which systematic mental pressure brings people to abject submission and by which totalitarians imprint their subjective truth on their victims minds Dr Meerloo spent the first two and one half years of WWII under the pressure of Nazi occupied Holland witnessing at first hand the Nazi methods of mental torture on more than one occasion Then after personal experiences with enforced interrogation he escaped from a Nazi prison and certain death to England where he was able as Chief of the Psychological Department of the Netherlands Forces to observe and study coercive methods officially After the war he came to the United States As more and more cases of thought control brainwashing and mental coercion were disclosed Cardinal Mindszenty Colonel Schwable Robert Vogeler and others his interest grew It was Dr Meerloo who coined the word menticide the killing of the spirit for this peculiar crime It is Dr Meerloo s position that through pressure on the weak points in men s makeup totalitarian methods can turn anyone into a traitor And in The Rape of the Mind he goes far beyond the direct military implications of mental torture to describing how our own culture unobtrusively shows symptoms of pressurizing people s minds He presents a systematic analysis of the methods of brainwashing and mental torture and coercion and shows how totalitarian strategy with its use of mass psychology leads to systematized rape of the mind He describes the new age of cold war with its mental terror verbocracy and semantic fog the use of fear as a tool of mass submission and the problem of treason and loyalty so loaded with
