*Sons of Adam, Daughters of Eve* João de Pina-Cabral, 1986 Altering economic conditions and widespread male emigration have led to a questioning of the values of peasant society in Portugal. This perceptive study of a society in transition looks at the issues of gender roles reflected in the book's title: the notions of community and egalitarianism, religion and burial and death rites. The author argues that while the peasant worldview is changing, many of the old values are being preserved.

Bridging the Gap H. Donald Daae P. Geol, 2011-04-19 This book answers the question as to the origin of Early Man. Was he created by God or did he evolve through a long evolutionary process? Who was the first Early Man to live on this Earth? What did he look like? Was he half ape and half man? Paleo archaeologists believe it is possible to trace Early Man back from about 2 to 3 million years ago to a more recent time when he could be truly called Early Man. Is it possible that Adam and Eve were the first man and woman that can truly be called Early Man? The science of archaeology and anthropology would have us believe that Early Man was a Stone Age person. He is often related to the Old Stone Age, the Middle Stone Age and the New Stone Age periods. He is often referred to as the Palaeolithic Man, the Mesolithic Man and the Neolithic Man. What were the great accomplishments of Early Man? Is it possible that the mysterious megalithic and colossal stone and pyramidal structures that are present in various parts of the earth were constructed by Early Man? What type of stone tools did he manufacture? Who was Modern Man? When did he appear on this Earth? Is there a gap in time that separates Early Man from Modern Man? How is it possible to relate Early Man throughout Europe, Asia, Africa, Australia, North and South America to Modern Day Man? This book reveals how it is possible to Bridge the Gap between Early Man and Modern Man. To find the answer you must read this book. Volume Two is a sequel to Volume One entitled *Bridging the Gap*. The First 6 Days. Volume One bridges the gap between the origin and history of the Earth about 4.6 billion years ago to the time of Early Man. It also reveals the astounding relationship that exists between the record of geology and the Biblical record of the earth throughout this vast period of time. Both books are a must to read. The Author brings the History of Early Man and the Old Testament account into focus in a very logical way so that we in the present feel a real connection to the past. This organized information is extremely helpful in adding to the wonder of the Creators Plan for Mankind. W. Gerry Loewen, BA, Econ, LLB.
