inflammation indigestion insomnia and addictions Yet too often we make choices that sabotage us rather than reverse what's wrong Tibetan medicine Tibet's ancient comprehensive science of healing offers effective tools for transforming suffering into health and happiness Tibetan medicine teaches that the purpose of life is to be happy and that after our basic needs are met happiness results primarily from our own thinking When challenges arise we can wallow in negativity and get sick or even sicker in mind and body Or we can decide to create health and happiness Making positive choices won't solve every problem but will produce better results than poor or thoughtless decisions do This unique book explains in everyday English how to use Tibetan medicine for self care and as a complement to modern medicine Tibetan medicine sheds light on the intricate relationship between mind and body Each of us is born with a unique combination of energies called our constitution Understanding our constitution empowers us to make conscious informed decisions about our thoughts diet and behavior to keep our energies in balance We learn to reduce stress create health prepare for death and be happy
