

How to Break the Iron Triangle?

The Iron Triangle

Iron Triangle Study Group (Australia)

The Iron Triangle:

The Politics of Defense Contracting Gordon Adams, 2020-02-18 This is the first systematic study of the relationship between government and defense contractors examining in detail the political impact of the eight most powerful defense contractors. It details ways in which Boeing, General Dynamics, Grumman, McDonnell Douglas, Northrop, Rockwell International, and United Technologies influence government from their basic contract activity, corporate structure and research efforts to their Washington offices. Political Action Committee campaign contributions, hiring of government personnel and membership on federal advisory committees. Adams concludes with specific recommendations for changes in disclosure requirements that would curb some of the political power corporations can wield. It also suggests specific ways in which the Iron Triangle can be made subject to wider congressional and public scrutiny.

Japan's Dysfunctional Democracy Roger W. Bowen, 2003 A study of the corrosive effects of corruption on one of the world's major liberal democracies. It explores the disconnection between democratic rules and undemocratic practices in Japan since World War II with attention to corrupt practices of various prime ministers.

Introduction to the Policy Process Birkland, 2015-05-18 Thoroughly revised, reorganized, updated and expanded this widely used text sets the balance and fills the gap between theory and practice in public policy studies. In a clear, conversational style, the author conveys the best current thinking on the policy process with an emphasis on accessibility and synthesis rather than novelty or abstraction. A newly added chapter surveys the social, economic and demographic trends that are transforming the policy environment.

What Is the Iron Triangle, and How Has It Changed? Julien Pollack, 2018 Purpose: The Iron Triangle, also called the Triple Constraint, is a central concept to project management research and practice, representing the relationship between key performance criteria. However, there is disagreement about which criteria should be represented on the vertices of this triangle. The purpose of this paper is to explore which concepts are part of the Iron Triangle and how these concepts have changed over time. Design methodology: Approach: This paper explores 45 years of project management research, drawing on a database of 109,804 records from 1970 to 2015. Three corpora were constructed, representing the project management and Time, Cost and Quality Management literature. Time and Cost are consistently identified as part of the Iron Triangle. However, the status of quality is contested. Key concepts in the project management literature were explored using scientometric research techniques to understand the relationship between these concepts. Findings: Significant links were found between Time, Cost and Quality, verifying these concepts as the vertices on the Iron Triangle. These links were significantly stronger than links to alternatives such as Scope, Performance or Requirements. Other concepts that are core to the Iron Triangle were also identified and how these have changed over time. Originality value: This research develops the understanding of a key project management concept by clarifying which concepts are part of the Iron Triangle based on evidence of how the concept is used in research. This paper also reveals the context in which this concept is used and how this has changed over the last 45 years.

Project Success and Quality Andrew Wright,Therese

Lawlor-Wright,2018-09-03 Projects are inherently risky since they involve some level of uncertainty doing something new in the target environment but the percentage of projects seen as a success is still disappointingly low especially for IT projects The Iron Triangle of time cost quality suggests that all three aspects are equal but with quantitative methods for monitoring project performance the focus is primarily on managing cost and time This book seeks to redress the balance explaining the rationale and benefits of focusing more on quality fitness for purpose and conformance to requirements before detailing a range of tools and techniques to support rebalancing the management of projects programmes and portfolios It shows how managing project quality actively can reduce costs through minimising wastage and reduce delays through avoiding rework leading to improved project success rates and customer satisfaction

The Battle of Bong Son Kenneth P. White,2024-02-29 Finalist 2024 Army Historical Foundation Distinguished Writing Awards a deeply researched and comprehensive book chronicles the battle in great detail including all American and allied units involved and some of the enemy units of the NVA s Sao Vong Yellow Star Division The VVA Veteran Operation Masher White Wing targeted the regiments of the North Vietnamese Army Sao Vang Division operating in the Bong Son area in northeast Binh Dinh Province in central South Vietnam The operation started on January 24 1966 immediately after the Vietnamese New Year Tet and ended six weeks later It was led by newly promoted Colonel Harold G Moore who as a lieutenant colonel commanded the 1st Battalion 7th Cavalry in the battle of Landing Zone X Ray in the Ia Drang Valley two months earlier In 41 days of sustained fighting the 1st Cav battled each of the three regiments of the Sao Vang Division resulting in enemy losses of more than 3 000 KIA This came at the cost of 199 Americans killed on the battlefield and 46 more who died in the crash of a U S Air Force C 123 aircraft en route to the battlefield making it one of the deadliest battles of the entire Vietnam War Operation Masher White Wing was a success The 1st Cav demonstrated that it had the firepower mobility and leadership to find the enemy and deliver a severe blow to it in terms of personnel and equipment losses and in forced evacuation from formerly secure base areas seemingly proving the value of the search and destroy strategy However within a few weeks intelligence reports indicated that North Vietnamese soldiers were returning to the Bong Son area in small groups By late April the Sao Vang Division was back in the area in force Operation Masher White Wing proved to be the start of a very long and deadly struggle between the 1st Cav and North Vietnamese for control of Binh Dinh Province multiple search destroy operations eventually resulted in more than 9 000 enemy KIA and 2 358 enemy detained with friendly losses of more than 1 200 KIA 5 775 WIA and 27 MIA While Masher White Wing demonstrated that search destroy

operations were very effective at the tactical level but without a high level strategy to stop the unabated flow of fresh Communist troops and supplies into South Vietnam it wasn't clear just how they contributed to overall victory. At the start of 1968 General Westmoreland ordered the 1st Cav to terminate its operations in the Bong Son area bringing the battle to a close. **Leadership for Health Professionals** Gerald Ledlow, Nicholas Coppola, 2010-10-25 Health Sciences Professions

The Iron Triangle Dan Briody, 2011-01-06 A penetrating look at the company at the nexus of big business, government and defense. The Carlyle Group is one of the largest private equity firms in the world with over 13 billion in funds. Carlyle's investments include everything from defense contractors to telecommunications and aerospace companies. But there is more to this company than meets the eye. Carlyle's executives include heavyweights from the worlds of business and politics such as former secretary of defense and CIA deputy director Frank Carlucci, former secretary of state James Baker III, former President George Bush, former UK Prime Minister John Major, and former chairman of the SEC Arthur Levitt. Osama Bin Laden's estranged family was personally invested in the group until recently. In *The Iron Triangle*, journalist Dan Briody examines a company at the nexus of big business, government and defense that according to some sources epitomizes corporate cronyism, conflicts of interest and war profiteering. This fascinating examination leads readers into a world that few can imagine, full of clandestine meetings, quid pro quo deals, bitter ironies and petty jealousies. And the cast of characters includes some of the most powerful men in the world. Strap in because this ride could get a little bumpy. Dan Briody, New York NY, is an award winning business journalist whose *Red Herring* article *Carlyle's Way* broke the story on the inner workings of the Carlyle Group. Briody has appeared on numerous radio and television programs covering the Carlyle Group and has become a primary source for other journalists covering this story. Briody's articles have appeared in *Forbes*, *Red Herring* and *the Industry Standard*. **Encyclopedia of the American Presidency** Michael A.
