*Television Series as Literature* Reto Winckler, Víctor

Huertas-Martín,2022-01-19 This book explores how television series can be understood as a form of literature bridging the gap between literary and television studies. It goes beyond existing adaptation studies and narratological approaches to television series in both its scope and depth. The respective chapters address literary works, themes, tropes, techniques, values, genres, and movements in relation to a broad variety of television series while drawing on the theoretical work of a host of scholars from Simone de Beauvoir and Yuri Lotman to Ted Nannicelli and Jason Mittel and on critical approaches ranging from narratology and semiotics to empirical sociology and phenomenology. The book fosters new ways of understanding television series and literature and lays the groundwork for future scholarship in a number of fields. By questioning the alleged divide between television series and works of literature, it contributes not only to a better understanding of television series and literary texts themselves but also to the development of interdisciplinary scholarship in the humanities.

*Jets from Young Stars* Jonathan Ferreira, Catherine Dougados, Emma Whelan, 2007-08-30 This volume presents the edited lecture notes of the First JETSET School on Jets from Young Stars: Models and Constraints held by the Marie Curie Research and Training Network on JET Simulations: Experiments and Theory. The first half of the book is devoted to general observational constraints. The second section is devoted to theoretical knowledge of magneto hydrodynamic processes pertinent to the jet launching mechanism in young stars.

**The Romanian Novel** Ion Bogdan Lefter, 1997 *The Novels of Toni Morrison* Patrick Bryce Bjork, 1992 This study focuses on the cultural and communal traditions embedded in the five novels written by Toni Morrison. It explores how these traditions influence the search for self and place within a given African American community. Thoroughly researched, the book examines historical and ideological aspects of African American literature while offering in-depth critical analysis of each Morrison novel. The book ultimately demonstrates that within each novel Morrison reconstructs African American values, traditions, and beliefs in order to show the importance of community to the development and/or dissolution of self and place.
