Rabinow, Dorthe Aagesen, Metropolitan Museum of Art (New York, N.Y.), 2012 Throughout his long career Henri Matisse 1869-1954 continually expanded the boundaries of his art. By repeating images in pairs, trios, and series, he conducted an ongoing dialogue with his earlier works in order to push further and deeper into true painting. In this fresh approach to a much-studied artist, prominent scholars from the United States and Europe examine more than sixty works in concise chapters that focus on this aspect of Matisse's working process. From early pairs such as *Young Sailor I* and *II* 1906 and *Le Luxe I* and *II* 1907 through a series of late studio scenes from Vence 1946-48, Matisse is shown revisiting a given theme with the aim of devising innovative, often radical solutions to such problems as how to portray light, handle paint, select colors, and manipulate perspective. New technical studies of the early paired works and photographs documenting the evolution of his later paintings help to elucidate Matisse's complex evolution. In numerous excerpts from letters and interviews, he is revealed as an artist who regularly questioned himself and his methods, a man of powerful intellect who regarded each new painting as an adventure. A significant addition to art historical literature, *Matisse: In Search of True Painting* is a revelatory study of a seminal figure in 20th century modernism. Page 4 of cover.

Presidential Design Awards, 1988 Painting and Reality Etienne Gilson, 2023-10-17 A classic study of the art of painting and its relationship to reality. In this book, Etienne Gilson puts forward a bold interpretation of the kind of reality depicted in paintings and its relation to the natural order. Drawing on insights from the writings of great painters from Leonardo, Reynolds, and Constable to Mondrian and Klee, Gilson shows how painting is foreign to the order of language and knowledge. Painting, he argues, seeks to add new beings to nature, not to represent those that already exist. For this reason, we must distinguish it from another art that of picturing, which seeks to produce images of actual or possible beings. Though pictures play an important part in human life, they do not belong in the art of painting. Through this distinction, Gilson sheds new light on the evolution of modern painting. A magisterial work of scholarship by an acclaimed historian of philosophy.

Painting and Reality features paintings from both classical and modern schools and includes extended selections from the writings of Reynolds Delacroix Gris Gill and Ozenfant **Cézanne to Picasso** Rebecca A.
