*Civic Education* Richard G. Niemi, Jane Junn, 2005-05-11 Sound democratic decisions rely on a citizenry with at least a partial mastery of the rules and workings of democratic government American high schools where students learn the basics of citizenship thus ought to play a critical role in the success of democracy Yet studies examining the impact of high school government and civics courses on political knowledge over the past quarter century have generally shown that these courses have little or no effect In this important book Richard G Niemi and Jane Junn take a fresh look at what America's high school seniors know about government and politics and how they learn it The authors argue convincingly that secondary school civics courses do indeed enhance students civic knowledge This book is based on the most extensive assessment to date of civic knowledge among American youth the 1988 National Assessment of Education Progress NAEP Civics Assessment The authors develop and test a theoretical model to explain the cognitive process by which students learn about politics and they conclude by suggesting specific changes in the style and emphasis of civics teaching Studies in Civics J. **Studies in Civics** James Thompson McCleary, 1908     *School-University-Community Collaboration for Civic Education and Engagement in the Democratic Project* R. Martin Reardon, Jack Leonard, 2022-05-04 This volume highlights the work of educators involved in school university community collaborations focused on civic education. *Renewing America's Civic Compact* Carol McNamara, Trevor Shelley, 2023-09-25 Renewing America's Civic Compact addresses the chief challenges and principal tensions in the operation of our civil society in order to consider possible paths forward. The meritocracy, multiculturalism, issues of race, technology and populist nationalism in American democracy today are some of the issues that have created more tensions to American public life. Chapters address the condition of civil conversation within the university and across American society. This collection then engages debates over the continued relevance and durability of liberal ideas and institutions whether we have accessible means and resources to channel digital technology more fruitfully for the sake of human achievement and well being and how some have endeavored to revitalize the American civic vocation through both scholarly and practical education. Finally the volume closes with a call to restore civic friendship properly understood as the foundation for renewing America's civic compact

**Studies in Civics** James Thompson McCleary, 1889     **The Social Studies in Secondary Education** Murry R. Nelson, 1994 This document contains a reprint of the 1916 The Social Studies in Secondary Education A Six Year Program Adapted Both to the 6 3 3 and the 8 4 Plans of Organization and Report of the Committee on Social Studies of the Commission on the Reorganization of Secondary Education of the National Education Association widely believed to be the most important document in the history of citizenship education in the United States. It legitimated the term social studies to designate formal citizenship education and placed squarely in the field all of those subjects that were believed to contribute to that end. While recognizing the importance of history and the social sciences as contributing to citizenship education the Committee's report recognized that citizenship education is something more than mastery of separate disciplines. It recognized the study of social problems as a necessary part of the education of citizens and outlined a content for the social

studies that was widely adopted and has remained remarkably unchanged to the present. This book includes annotations by Murry R Nelson the editor of the present document on the 1916 report. Commentaries include 1 The Social Contexts of the Committee on Social Studies Report of 1916 Murry M Nelson and 2 Thomas Jesse Jones Doing God's Work and the 1916 Report Stephen T Correia. The book also contains a 35 page select annotated bibliography from the ERIC database on social studies reform. The table of contents of the 1915 report on The Teaching of Community Civics is included in an appendix.
