## **Studies In The Structure Of Hebrew Narrative:**

*Studies in the Structure of Hebrew Narrative* Robert C. Culley,1976      *Studies in the Book of Exodus* Marc Vervenne,1996      [Reading the Wife/Sister Narratives in Genesis](#) Hwagu Kang,2018-10-31 The book of Genesis introduces three similar wife sister narratives commonly thought to be originating from different sources because of their repetitive entries This research explores the wife sister narratives in Genesis Gen 12 10 13 1 20 1 18 and 26 1 11 and it aims to provide an understanding of the three stories as a whole by uncovering its context by textlinguistic and literary type scene analysis Textlinguistic analysis helps us to see how each wife sister narrative functions in its context while type scene analysis emphasizes how the three narratives develop and contribute to the patriarchal narratives through their similarities and variations Although the traditional type scene analysis studies recurrent fixed motives in texts this study focuses much more on literary aspects such as characterization theme and plot Through this study the three wife sister stories will elaborate that the patriarchal narratives are not results of different authors but the well developed products of a single author The three wife sister stories work together to highlight God s faithfulness to his promises Gen 12 1 3      **The Verbal Tense System in Late Biblical Hebrew Prose** Ohad Cohen,2018-08-14 This study offers a synchronic and diachronic account of the Biblical Hebrew verbal tense system during the Second Temple period based on the books of Esther Daniel and Ezra and Nehemiah along with the non synoptic parts of Chronicles In analyzing the development of this system Cohen discerns the changes that mark the transition from the classical era to the Second Temple period The book is divided into two main parts a survey of previous research along with the methodology of the present study and a descriptive analysis of the verbal system in late biblical prose literature In the first section the author discusses the eclectic nature of the biblical corpus including the ramifications of this heterogeneity on linguistic efforts to formulate a synchronic structural account of its texts Moreover he surveys the principal linguistic concepts of tense aspect and mood and the verbal paradigm s complex nature The second part of the book offers a synchronic account of the Second Temple period verbal system It features a categorical breakdown and analysis of all the verb forms in the corpus s prose texts The author examines the reasons behind these changes by dint of a diachronic comparison with other strata of the Hebrew language namely biblical texts of the First Temple period the Dead Sea Scrolls and the language of the Sages      [Style And Structure In Biblical Hebrew Narrative](#) Jerome T. Walsh,2017-08-24 The pages of the Hebrew Bible are filled with stories short and long funny and sad histories fables and morality tales The ancient narrators used a variety of stylistic devices to structure to connect and to separate their tales and thus to establish contexts within which meaning comes to light What are these devices and how do they guide our reading and our understanding of the text Style and Structure in Biblical Hebrew Narrative explores some of the answers and shows scriptural interpretation can be a matter of style Part one of Style and Structure in Biblical Hebrew Narrative examines a wide variety of symmetrical patterns biblical Hebrew narrative uses to organize its units and subunits and the interpretive

dynamics those patterns can imply Part two addresses the question of boundaries between literary units Part three examines devices that biblical Hebrew narrative uses to connect consecutive literary units and subunits Chapters in Part One Structures of Organization are Reverse Symmetry Forward Symmetry Alternating Repetition Partial Symmetry Multiple Symmetry Asymmetry Chapters in Part Two Structures of Disjunction are Narrative Components Repetition and Narrative Sequence Chapters in Part Three Structures of Conjunction are Threads Links Examples Linked Threads Examples Hinges Examples and Double Duty Hinges Examples Jerome T Walsh PhD is a professor of theology and religious studies at the University of Botswana He is the author of 1 Kings in the Berit Olam The Everlasting Covenant Studies in Hebrew Narrative and Poetry series for which he is also an associate editor

### **The Pragmatics of Perception and Cognition in MT**

**Jeremiah 1:1-6:30** Elizabeth Hayes,2008-12-10 Recent advances in cognitive linguistics provide new avenues for reading and interpreting Biblical Hebrew prophetic text This volume utilises a multi layered cognitive linguistics approach to explore Jeremiah 1 1 6 30 incorporating insights from cognitive grammar cognitive science and conceptual blending theory While the modern reader is separated from the originators of these texts by time space and culture this analysis rests on the theory that both the originators and the modern reader share common features of embodied experience This opens the way for utilising cognitive models conceptual metaphor and mental spaces theory when reading and interpreting ancient texts This volume provides an introduction to cognitive theory and method Initially short examples from Jeremiah 1 1 6 30 are used to introduce the theory and method This is followed by a detailed comparison of traditional and cognitive approaches to Biblical Hebrew grammar These insights are then applied to further examples taken from Jeremiah 1 1 6 30 in order to test and refine the approach These findings show that Jeremiah 1 1 1 3 establishes perspective for the text as a whole and that subsequent shifts in perspective may be tracked using aspects of mental spaces theory Much of the textual content yields to concepts derived from conceptual metaphor studies and from conceptual blending theory which are introduced and explained using examples taken from Jeremiah 1 1 6 30 The entire analysis demonstrates some of the strengths and weaknesses of using recent cognitive theories and methods for analysing and interpreting ancient texts While such theories and methods do not obviate the need for traditional interpretive methods they do provide a more nuanced understanding of the ancient text

**Journal of Biblical Literature**, 1978 **A Tale of Two Narratives** Grace Wermenbol, 2021-05-27 The Holocaust and the Nakba are foundational traumas in Israeli Jewish and Palestinian societies and form key parts of each respective collective identity This book offers a parallel analysis of the transmission of these foundational pasts in Israeli Jewish and Palestinian societies by exploring how the Holocaust and the Nakba have been narrated since the signing of the 1993 Oslo Accords The work exposes the existence and perpetuation of ethnocentric victimhood narratives that serve as the theoretical foundations for an ensuing minimization or even denial of the other's past Three established realms of societal memory transmission provide the analytical framework for this study official state education commemorative acts and mass mediation Through this analysis the work demonstrates the interrelated nature of the Israeli-Palestinian conflict and the contextualization of the primary historical events while also highlighting the universal malleability of mnemonic practices
