*The Nature of Shamanism and the Shamanic Story* Michael Berman, 2007 The book makes out a case for the introduction of a new genre of tale the shamanic story which has either been based on or inspired by a shamanic journey or contains a number of the elements that are typical of such a journey The stories featured are the Book of Jonah from the Old Testament two traditional stories from the Republic of Georgia The Earth will take its Own and Davit a contemporary German tale Bundles and the Korean story of Shimchong the Blindman TM's Daughter By making use of textual material from a number of different cultures and times the intention is to highlight the pervasive influence shamanism has had and to show how the new genre being proposed is a universal one The research questions addressed include 1 defining what shamanism is deciding whether it should be classified as a religion a methodology or a way of life 2 considering whether a case can be made out for the introduction of a new genre of tale and if so what its characteristics are It is hoped the book will be of interest not only to those involved in the study of shamanism but also to those whose interest is in the study of literary texts Since the old bearers of shamanic traditions quite often were and even today are illiterate the study of their folklore epic songs laments narratives undoubtedly provides a rich source for research

**Divination and the Shamanic Story** Michael Berman,2008 Stories have traditionally been classified as epics myths sagas legends folk tales fairy tales parables or fables However the definitions of the terms have a tendency to overlap making it difficult to classify and categorize material For this reason a case can be made for the introduction of a new genre termed the shamanic story a story that has either been based on or inspired by a shamanic journey a numinous experience in non ordinary reality or one that contains a number of the elements typical of such a journey Other characteristics include the way in which the stories all tend to contain embedded texts often the account of the shamanic journey itself how the number of actors is clearly limited as one would expect in subjective accounts of what can be regarded as inner journeys and how the stories tend to be used for healing purposes Within this new genre it is proposed that there exists a sub genre shamanic stories that deal specifically with divination and examples are presented and analysed to support this hypothesis By means of textual analysis it can be shown they all share certain attributes in common the identification of which forms the conclusion of the work      **Shamanism and Traditional Beliefs** Torben A. Vestergaard,2001 These papers represent the latest

research on religion in the North Atlantic The relationship between human society and the other realms is explored looking at ritual dreams imagery and other shamanistic practices There are extensive cross cultural resemblances between such beliefs and practices within the northern regions Historically such issues have taken place in different disciplinary frameworks with limited mutual contact In the tradition of North Atlantic Studies scholars from different disciplines and research communities are brought together in the presentation of common themes in and around the North Atlantic areas In this volume the contributors are anthropologists archaeologists folklorists biologists and presenting a different viewpoint a shamanic therapist      *Shamanism in Eurasia* Mihály Hoppál,1984      **Fenno-Ugrica Suecana** ,1978      *Sámi Artistry, Identity, and Indigenism in Museums and Markets* Zoë-hateehc Durrah Scheffy,2004      **Journal of Prehistoric Religion** ,1992      Sami Folkloristics Juha Pentikäinen,2000      *Recent Polar Literature* ,1980      The Writer's Directory ,1998-2000
