According to Vitruvius, a good structure must meet the three characteristics of firmitas, utilitas, and venustas, which are commonly translated as stability, utility, and delight. In modern English, an equivalent would be:

- Durability: a construction should be able to withstand the elements, and remain in good condition.
- Utility: it should be appropriate for the purpose for which it is used.
- Beauty: should be pleasing to the senses.

# PAINTING

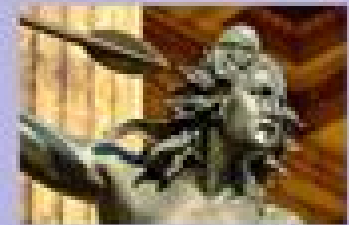

Painting is perhaps the most well known of the seven types of fine arts. People have used that a piece of paper could be a composition to capture reality, about the beginning of time.

There have been several well-known visual artists, so it's no wonder that it's still one of the most popular and widely recognized fine art forms.

# SCULPTURE

Another of the seven arts is sculpture, the ability to transform the soft to create a 3D figure. Originally, a sculpture was created by just carving into a material, which was then directly into the stone.

A few modernized into an art form that incorporates a wide range of materials and techniques. Sculpting is a sub-set of the visual arts that captures three dimensions. It is a type of graphic art.

# MUSIC

Music has a special place among the seven arts because of its capacity to create harmonious sounds using instruments. For a long time, humans had been accompanied by the music of nature.

It is a communication art form, as well as a connecting art, capable of reaching the subconscious layer and influencing an entire population. There are hundreds of musical instruments, which are engaged by hands.
