**Imagination in Transition** Bruce Barton,2005 The move from playwright to cinema screenwriter and director is a rare accomplishment No American writer has achieved this transition with the level of success enjoyed over the past two decades by David Mamet Over this same period Mamet has also authored a body of aggressive critical writing that demonstrates enduring aesthetic and ideological preoccupations regularly expressed as a set of confident best practices However the relationship between theory and practice becomes particularly and productively rowdy at the sites of Mamet s transitional media crossing Imagination in Transition establishes a flexible set of core characteristics of Mamet s dramatic and theatrical dramaturgy and then compares these with the textual and cinematographic strategies employed by Mamet in his initial transitional feature films This study then offers both an innovative approach to Mamet s work and an illuminating framework for cross media analysis
