Tales From The Freudian Crypt:

Tales from the Freudian Crypt Todd Dufresne, 2000 A fundamental reassessment of the Freud legend that aims to shake the very foundations of Freud studies Killing Freud Todd Dufresne, 2006-09-19 Killing Freud takes the reader on a journey through the 20th century tracing the work and influence of one of its greatest icons Sigmund Freud A devastating critique Killing Freud ranges across the strange case of Anna O the hysteria of Josef Breuer the love of dogs the Freud industry the role of gossip and fiction bad manners pop psychology and French philosophy figure skating on thin ice and contemporary therapy culture A map to the Freudian minefield and a masterful negotiation of high theory and low culture Killing Freud is a witty and fearless revaluation of psychoanalysis and its real place in 20th century history It will appeal to anyone curious about the life of the mind after the death of Freud Haunted Subjects C. Davis, 2007-01-11 Why do the dead return Do they remain part of the world of the living This book examines these questions as they emerge in areas as diverse as film Holocaust testimony and the works of Jacques Derrida Nicolas Abraham and Maria Torok The book suggests it may be as difficult for the living to get rid of the dead as it is to live without them Killing Freud Todd Dufresne, 2005-04-29 Takes the reader on a journey through the 20th century tracing the work and influence of one of its greatest icons Sigmund Freud This is a revaluation of psychoanalysis and its place in 20th century history It is of interest to those curious about the life of the mind after the death of Freud **Non-Legality in International Law** Fleur Johns, 2013-01-03 International lawyers typically start with the legal What is a legal as opposed to a political question How should international law adapt to the unforeseen These are the routes by which international lawyers typically reason This book begins instead with the non legal In a series of case studies Fleur Johns examines what international lawyers cast outside or against law as extra legal illegal pre legal or otherwise non legal and how this comes to shape political possibility Non legality is not merely the remainder of regulatory action It is a key structuring device of contemporary global order Constructions of non legality are pivotal to debate in areas ranging from torture to foreign investment and from climate change to natural disaster relief Understandings of non legality inform what international lawyers today do and what they refrain from doing Tracing and potentially reimagining the non legal in international legal work is accordingly both vital and pressing *Freud's Memory* Rob White, 2008-07-24 A wide ranging reading of Freud's work this book focuses on Freud's scientifically discredited ideas about inherited memory in relation both to poststructuralist debates about mourning and to certain uncanny figurative traits in his writing Freud's Memory argues for an enriched understanding of the strangenesses in Freud rather than any denunciation of psychoanalysis as a bogus explanatory method **Against Freud** Todd Dufresne, 2007 Against Freud is a highly accessible informative and entertaining examination of Freud's controversial ideas and legacy by the world's most knowledgeable critics of psychoanalysis **The Late Sigmund Freud** Todd Dufresne, 2017-03-24 Freud is best remembered for two applied works on society The Future of an Illusion and Civilization

and its Discontents Yet the works of the final period are routinely denigrated as merely supplemental to the earlier more fundamental discoveries of the unconscious and dream interpretation In fact the cultural Freud is sometimes considered an embarrassment to psychoanalysis Dufresne argues that the late Freud as brilliant as ever was actually revealing the true meaning of his life s work And so while The Future of an Illusion Civilization and its Discontents and his final work Moses and Monotheism may be embarrassing to some they validate beliefs that Freud always held including the psychobiology that provides the missing link between the individual psychology of the early period and the psychoanalysis of culture of the final period The result is a lively balanced and scholarly defense of the late Freud that doubles as a major reassessment of psychoanalysis of interest to all readers of Freud
