 History of the Cold War, 1962-1991 Jonathan M. House,2020-09-24 Study of the Cold War all too often shows us the war that
 wasn t fought The reality of course is that many hot conflicts did occur some with the great powers weapons and approval
 others without It is this reality and this period of quasi war and semiconflict that Jonathan M House plumbs in *A Military
 History of the Cold War 1962 1991* a complex case study in the Clausewitzian relationship between policy and military force
 during a time of global upheaval and political realignment This volume opens a new perspective on three fraught decades of
 Cold War history revealing how the realities of time distance resources and military culture often constrained and diverted
 the inclinations or policies of world leaders In addition to the Vietnam War and nuclear confrontations between the USSR
 and the United States this period saw dozens of regional wars and insurgencies fought throughout Asia Africa and Latin
 America Cuba Pakistan Indonesia Israel Egypt and South Africa pursued their own goals in ways that drew the superpowers
 into regional disputes Even clashes ostensibly unrelated to the politics of East West confrontation such as the Nigerian
 Biafran conflict the Falklands Malvinas War and the Indonesian occupation of East Timor involved armed forces weapons and
 tactics developed for the larger conflict and thus come under House s scrutiny His study also takes up nontraditional or
 specialized aspects of the period including weapons of mass destruction civil military relations civil defense and control of
 domestic disorders The result is a single integrated survey and analysis of a complex period in geopolitical history which fills
 a significant gap in our knowledge of the organization logistics operations and tactics involved in conflict throughout the Cold
