web the lte toolbox can be used to generate standard compliant lte lte advanced uplink downlink and sidelink complex baseband waveforms which could be used for a number of end user applications including end to end simulations static waveform generation regression testing and performance analysis

**uplink shared channel matlab simulink mathworks** - Jun 05 2023

web the physical uplink shared channel pusch carries uplink shared channel data and control information the processing chain for the pusch includes scrambling modulation mapping precoding resource element mapping and single carrier frequency division multiple access sc fdma modulation

**lte m uplink waveform generation matlab simulink** - Oct 09 2023

web this example shows how to create an uplink lte m transmission consisting of the physical uplink shared channel pusch and associated demodulation reference signals dm rs including repetitions and frequency hopping

**structure of the lte uplink link level simulator** - Dec 31 2022

web this paper describes an open lte uplink link level simulator the simulator is developed using matlab and is offered under an academic non profit license including the source code
