component of the reading process it is important for teacher candidates to see a broader more complete picture of reading. Given the role that reading plays in the elementary school curriculum it is imperative that teachers have a well developed understanding of the reading process and what it means to be a teacher of readers. *Literate Lives Teaching Reading and Writing in the Elementary Classroom* covers the major theories and application strategies of the reading process as well as current debates in the field using a unique framework that builds upon the following themes: believing that literacy is based in social cultural and historical contexts; assuming an inquiry stance; being problem posers and wondering why; using kidwatching Goodman 1985 as an assessment tool to make informed instructional decisions; recognizing and using the multiple literacies that children bring to the classroom; lingering and reflecting on one's decisions in light of what one knows and believes. *Children's Books in Print* R R Bowker Publishing, Bowker, 1999-12 **Subject Guide to Children's Books in Print**, 1987 **Put a Book in Their Hands** Mary Lee Blansett, 1992 Thematic units that will help develop oral communication, creative written communication and other whole language attributes.
