## Stories From The Past:

*Hidden in His Own Story* Andrew Walton, 2016-11-22 *Hidden in His Own Story* is an invitation to reconsider and re-imagine both the humanity and divinity of Jesus. It is an invitation to people who are not familiar with the Bible stories and have only heard them through other sources, also to many who have rejected traditional interpretations of the stories as religious dogma, and to many people who are so steeped in the stories that they have become cliché. Even the most clever storyteller or writer of fiction can never totally disguise or deny their personal influence on the story. And most of us have had the experience of someone beginning a story with "I know a person who" when in fact that person is the one telling the story. Why not imagine the same when Jesus says "Once there was a man..." *Quarterly Essay 23 The History Question* Inga Clendinnen, 2015-01-29 In the third Quarterly Essay for 2006, Inga Clendinnen looks past the skirmishes and pitched battles of the history wars and asks what is at stake: what kind of history do we want and need? Should our historians be producing the objective record of achievement that the Prime Minister has called for? For Clendinnen, historians cannot be the midwives of national identity and also be true to their profession; history cannot do the work of myth. Clendinnen illuminates the ways in which history, myth, and fiction differ from one another and why the differences are important. In discussing what good history looks like, she pays tribute to the human need for story telling but notes the distinctive critical role of the historian. She offers a spirited critique of Kate Grenville's novel *The Secret River* and discusses *The Stolen Generations* and the role of morality in history writing. This is an eloquent and stimulating essay about a subject that has generated much heat in recent times: how we should record and regard the nation's past. Who owns the past? In a free society, everyone. It is a magic pudding belonging to anyone who wants to cut themselves a slice from legend, manufacturers, through novelists looking for ready-made plots to interest groups out to extend their influence. Inga Clendinnen *The History Question* **History by HBO** Rebecca Weeks, 2022-07-12 The television industry is changing, and with it, the small screen's potential to engage in debate and present valuable representations of American history. Founded in 1972, HBO has been at the forefront of these changes, leading the way for many network, cable, and streaming services into the post-network era. Despite this, most scholarship has been dedicated to analyzing historical feature films and documentary films, leaving TV and the long-form drama hungry for coverage. In *History by HBO: Televising the American Past*, Rebecca Weeks fills the gap in this area of media studies and defends the historiographic power of long-form dramas. By focusing on this change and its effects, *History by HBO* outlines how history is crafted on television and the diverse forms it can take. Weeks examines the capabilities of the long-form serial for engaging with historical stories, insisting that the shift away from the network model and toward narrowcasting has enabled challenging histories to thrive in home settings. As an examination of HBO's unique structure for producing quality historical dramas, Weeks provides four case studies of HBO series set during different periods of United States history: *Band of Brothers* (2001), *Deadwood* (2004–2007), *Boardwalk Empire* (2012–2014), and *Treme* (2010–2013). In each case, HBO's lack of

advertiser influence commitment to creative freedom and generous budgets continue to draw and retain talent who want to tell historical stories Balancing historical and film theories in her assessment of the roles of mise en scene characterization narrative complexity and sound in the production of effective historical dramas Weeks evaluation acts as an ode to the most recent Golden Age of TV as well as a critical look at the relationship between entertainment media and collective memory
