*Iterative Identification and Restoration of Images* Reginald L. Lagendijk,Jan Biemond,2013-10-03 One of the most intriguing questions in image processing is the problem of recovering the desired or perfect image from a degraded version In many instances one has the feeling that the degradations in the image are such that relevant information is close to being recognizable if only the image could be sharpened just a little This monograph discusses the two essential steps by which this can be achieved namely the topics of image identification and restoration More specifically the goal of image identification is to estimate the properties of the imperfect imaging system blur from the observed degraded image together with some statistical characteristics of the noise and the original uncorrupted image On the basis of these properties the image restoration process computes an estimate of the original image Although there are many textbooks addressing the image identification and restoration problem in a general image processing setting there are hardly any texts which give an indepth treatment of the state of the art in this field This monograph discusses iterative procedures for identifying and restoring images which have been degraded by a linear spatially invariant blur and additive white observation noise As opposed to non iterative methods iterative schemes are able to solve the image restoration problem when formulated as a constrained and spatially variant optimization prob In this way restoration results can be obtained which outperform the lem results of conventional restoration filters

The book delves into Iterative Identification And Restoration Of Images. Iterative Identification And Restoration Of Images is a crucial topic that must be grasped by everyone, ranging from students and scholars to the general public. The book will furnish comprehensive and in-depth insights into Iterative Identification And Restoration Of Images, encompassing both the fundamentals and more intricate discussions.

1. The book is structured into several chapters, namely:

- Chapter 1: Introduction to Iterative Identification And Restoration Of Images
- Chapter 2: Essential Elements of Iterative Identification And Restoration Of Images
- Chapter 3: Iterative Identification And Restoration Of Images in Everyday Life
- Chapter 4: Iterative Identification And Restoration Of Images in Specific Contexts
- Chapter 5: Conclusion

2. In chapter 1, the author will provide an overview of Iterative Identification And Restoration Of Images. The first chapter will explore what Iterative Identification And Restoration Of Images is, why Iterative Identification And Restoration Of Images is vital, and how to effectively learn about Iterative Identification And Restoration Of Images.
3. In chapter 2, this book will delve into the foundational concepts of Iterative Identification And Restoration Of Images. The second chapter will elucidate the essential principles that need to be understood to grasp Iterative Identification And Restoration Of Images in its entirety.
4. In chapter 3, the author will examine the practical applications of Iterative Identification And Restoration Of Images in daily life. This chapter will showcase real-world examples of how Iterative Identification And Restoration Of Images can be effectively utilized in everyday scenarios.
5. In chapter 4, the author will scrutinize the relevance of Iterative Identification And Restoration Of Images in specific contexts. This chapter will explore how Iterative Identification And Restoration Of Images is applied in specialized fields, such as education, business, and technology.
6. In chapter 5, the author will draw a conclusion about Iterative Identification And Restoration Of Images. This chapter will summarize the key points that have been discussed throughout the book.

This book is crafted in an easy-to-understand language and is complemented by engaging illustrations. It is highly recommended for anyone seeking to gain a comprehensive understanding of Iterative Identification And Restoration Of Images.
