*Britain and the American Frontier, 1783-1815* James Leitch

Wright,1975 Challenging the view that a common cultural heritage and reviving trade led to an Anglo American reconciliation after the American Revolution Mr Wright maintains that British policy toward America from 1783 to 1815 was influenced in large part by a desire to reach an accommodation with former colonists simultaneous with a willingness to ally with various red white and black Americans to restrict the boundaries of the new republic or to bring about its downfall

During this period the latter tendency more than once resulted in attempts by the British to bring the Mississippi Valley and the Gulf Coast under British sway and to expand the Canadian border into New England and the Old Northwest Geography the Indians loyalists land speculators and separatists within the United States all worked at one time or another in behalf of this scheme But with the signing of the Treaty of Ghent British ambition to control the Gulf Coast and Mississippi Valley and to link them to Canada died Unlike most historians of the period who have turned to the official correspondence of the British minister to the United States for a statement of British policy toward the new republic the author has relied in large part on the opinions of Charles Jenkinson Lord Hawkesbury William Wyndham Grenville Lord Melville and other influential statesmen in London At the same time he has not neglected the published literature dealing with this period of American and British history Accordingly Mr Wright s study is at once a fresh analysis of research materials and a valuable synthesis of scholarship
