*Aerial Propaganda and the Wartime Occupation of France, 1914-18* Bernard Wilkin, 2016-09-13 *Aerial Propaganda and the Wartime Occupation of France 1914 1918* explores the combined role played by the French and British Governments and Armies in creating and distributing millions of aerial newspapers and leaflets aimed at the French population trapped behind German lines Drawing on extensive research and French German and British primary sources the book highlights a previously unknown aspect of psychological warfare that challenges the established interpretation that the occupied populations lived in a state of total isolation and that the Allied governments had no desire to provide them with morale support Instead a very different picture emerges from this study which demonstrates that aerial propaganda not only played a fundamental role in raising morale in the occupied territories but also fuelled resistance and clandestine publications This book demonstrates that the existing historiographical portrayal of the occupied civilian as an uninformed victim must be replaced by a more nuanced interpretation

**The Cadaver King and the Country Dentist** Radley Balko, Tucker Carrington, 2018-02-27 A shocking and deeply reported account of the persistent plague of institutional racism and junk forensic science in our criminal justice system and its devastating effect on innocent lives After two three year old girls were raped and murdered in rural Mississippi law enforcement pursued and convicted two innocent men Kennedy Brewer and Levon Brooks Together they spent a combined thirty years in prison before finally being exonerated in 2008 Meanwhile the real killer remained free The Cadaver King and the Country Dentist recounts the story of how the criminal justice system allowed this to happen and of how two men Dr Steven Hayne and Dr Michael West built successful careers on the back of that structure For nearly two decades Hayne a medical examiner performed the vast majority of Mississippi s autopsies while his friend Dr West a local dentist pitched himself as a forensic jack of all trades Together they became the go to experts for prosecutors and helped put countless Mississippians in prison But then some of those convictions began to fall apart Here Radley Balko and Tucker Carrington tell the haunting story of how the courts and Mississippi s death investigation system a relic of the Jim Crow era failed to deliver justice for its citizens The authors argue that bad forensics structural racism and institutional failures are at fault raising sobering questions about our ability and willingness to address these crucial issues
