Larcenous Lady:

Countess of Shadows: The Ladies of Almack's Omnibus No. 1 Marissa Doyle, 2022-11-01 Young widow Annabel Chalfont Countess of Fellbridge has two small sons to raise a mountain of her late husband's debts to pay off and a secret she's a shadow shaper able to manipulate shadow as anyone else might clay. She and six other high born ladies with equally extraordinary abilities defend England against supernatural crime but the world knows them only as the Lady Patronesses of Almack's Regency London's most exclusive social venue. This volume includes the first three installments of the series: *The Forgery Furore* Who is forging vouchers to Almack's in Annabel's name? *The Vanishing Volume* When book fandom in Regency London is foiled by magic the Ladies come to the rescue. *Lyrics and Larceny* Annabel's cousin is in love and London's jewels are being spirited away might there be a connection?

Strange Capers Joan Smith, 2011-05-28 Constance Pethel had become accustomed to Lady Savage's economies and begging letters to Lord Aiglon to provide money to refurbish his falling down manor that they occupied. Arriving to discover this deceit Aiglon decided to put the property on the market depriving them of their home. But Constance learned that Aiglon was more interested in a stolen shipment of British arms and herself. *Regency Romance* by Joan Smith originally published by Fawcett Crest.

Medieval Romance and Material Culture Nicholas Perkins, 2015 Studies of how the physical manifests itself in medieval romance and medieval romances as objects themselves. Medieval romance narratives glitter with the material objects that were valued and exchanged in late medieval society: lovers' rings and warriors' swords, holy relics and desirable or corrupted bodies. Romance however is also a genre in which such objects make meaning on numerous levels and not always in predictable ways. These new essays examine from diverse perspectives how romances respond to material culture but also show how romance as a genre helps to constitute and transmit that culture. Focusing on romances circulating in Britain and Ireland between the twelfth and sixteenth centuries, individual chapters address such questions as the relationship between objects and protagonists in romance narrative, the materiality of male and female bodies, the interaction between visual and verbal representations of romance, poetic form and manuscript textuality, and how a nineteenth century edition of medieval romances provoked artists to homage and satire.

The Iron Chest R. A. Neddow, 2025-08-21 The Gods are at war. Jabrael is their weapon. Once she obeyed Amereld's iron laws. Now imprisoned and confessing to her captors, she reveals the truth: she touched the demon Lumos, refused purification and embraced monstrosity when survival demanded it. This is not a chosen one tale. It is the story of a woman who will shatter laws, betray loyalties and sacrifice even her humanity to fight a war the rest of the world cannot see. Praise for *The Iron Chest*: Violence, love, lust, magic and a complex cast. R. A. Neddow is a master of her craft.
