IEP Goal

Writing for Speech-Language Pathologists Lydia Kopel,Elissa Kilduff,2020-06-15 IEP Goal Writing for Speech Language Pathologists Utilizing State Standards Second Edition familiarizes the speech language pathologist SLP with specific Early Learning Standards ELS and Common Core State Standards CCSS as well as the speech language skills necessary for students to be successful with the school curriculum It also describes how to write defensible Individualized Education Plan IEP goals that are related to the ELS and CCSS SLPs work through a set of steps to determine a student's speech language needs First an SLP needs to determine what speech language skills are necessary for mastery of specific standards Then the

SLP determines what prerequisite skills are involved for each targeted speech language skill. Finally there is a determination of which Steps to Mastery need to be followed. It is through this process that an SLP and team of professionals can appropriately develop interventions and an effective IEP. The text takes an in depth look at the following speech language areas: vocabulary, questions, narrative, skills, summarize, compare and contrast, main idea and details, critical thinking, pragmatics, syntax and morphology, and articulation and phonological processes. These areas were selected because they are the most commonly addressed skills of intervention for students aged 3 to 21 with all levels of functioning. For each listed area the text analyzes the prerequisite skills and the corresponding Steps to Mastery. It provides a unique step by step process for transforming the Steps to Mastery into defensible IEP goals. The key is to remember that the goal must be understandable, doable, measurable and achievable. This text provides clear guidelines of quantifiable building blocks to achieve specific goals defined by the student's IEP. School based SLPs are instrumental in helping students develop speech and language skills essential for mastery of the curriculum and standards. All SLPs working with school aged children in public schools, private practice or outpatient clinics will benefit from the information in this text. New to the Second Edition: Ten Speech and Language Checklists for determining speech and language needs of an individual 3-21 years of age as well as measuring progress. Material on measuring progress including five performance updates. Goal writing case studies for four students of different ages and skill levels. A thoroughly updated chapter on writing goals with up to date examples. Revised Prerequisite Skills and Steps to Mastery to reflect the current state of research. Expanded focus on evidence based practice.
