opinion the free spending liberals have not driven this country to its current level of economic anxiety it is in fact the conservatives Current economic policy Cummings argues is the product of a union between conservative Republican and conservative Southern economic policy a union that began in the late 1960s Before the 1960s the Southern economy operated as a conservative economic incubator isolated from the rest of the country and conservative Republicans had to contend with both Democrats and liberal Republicans After 1969 with Republicans in the White House and with the help of Wallace supporters and later Reagan Democrats Southern conservative economic policy combined with Republican policy and was gradually exported to the rest of the country This collaboration and its growing political influence culminated in the Republican control of Congress in the 1990s Over the decades the South has become more Republican and Southern leaders have had an increasing influence in the Republican Party and in economic policy as a whole The conservative policy initiatives from this political union have led to some of the same economic problems that have plagued the South since Reconstruction and fostered by conservative Republicans in the 1920s ushered in the Great Depression Current policies argues Cummings are leading the country into a similar trap *Introduction to Geography* Henry Madison Kendall, Robert Morton Glendinning, 1951 **Multicultural Education** ,2001 **The Publishers' Trade List Annual** ,1978
