## **Economics Limpopo Grade Paper 2:**

*Contemporary South Africa and the Political Economy of Regional Development* Methembe Mdlalose, Isaac Khambule, Nene Ernest Khalema, 2025-02-21 South Africa's struggle in balancing its domestic needs while playing a dynamic developmental role in the African region and global context exposes a complex web of relations shaped by its geostrategic location on the continent and the world and the staggering legacies of colonialism and apartheid. As such, understanding the complexities of the global economy and of South Africa's place in it is of great importance. This book builds upon an existing body of literature which has demonstrated that while the post-apartheid South African state has recast its nation-building goals with advances having been made notably in the area of a stellar post-apartheid constitution, policy directives and democratic political integration, economic integration and policy implementation presents a projection of captured interests where big business concerns are entrenched in the post-apartheid state's apparent neo-liberal turn. The main focus of the book is to contextualise issues relating to three main trends in global discourses on development which are significant for South Africa and indeed for the study of the political economy of regional development in the country from the prism of South Africa as a global capitalist state. These trends include the impact of globalisation, regionalisation and the marginalisation of South Africa and indeed the African continent in the global economy, thus unpacking the possible role that South Africa might play in regional development. This volume will be a valuable resource to academics, researchers and students in the fields of regional studies, economics and political theory as well as policymakers, planners and local economic development practitioners.

Economic & Social Rights Report, 2002      *Social Memory as a Force for Social and Economic Transformation* Muxe Nkondo, 2023-02-01 This volume of essays is a reflection on social memory as a force for social and economic transformation. Written by scholars and organic intellectuals, it focuses on the uses of social memory in particular the conflict between the legacies of colonialism and the movement for fundamental change. The content addresses both experts and ordinary citizens alike with a view to advancing discourse on where we are right now and how we move on from here to achieve meaningful transformation. As scholars and public representatives with a deep understanding of the social, economic and political dynamics of modern history of South Africa, the contributors offer their unique perspectives and reflections on history, politics, economics, culture, education, ethics and the arts as well as the links that bind these aspects into an ecology of ideas and attitudes.

**Precambrian Continental Crust and its Economic Resources** S.M. Naqvi, 1990-09-06 Since 1964 the time when the Upper Mantle Project was started, the Precambrian continental crust has been studied in considerable detail in many areas. Multidisciplinary studies using modern tools and techniques have resulted in increasing levels of accuracy. The Precambrian continental crust has been subjected to several thermal events and multiple episodes of deformation. These events have obliterated the scenario produced by early events and present-day efforts are directed towards evaluating the cause-effect processes of each event. How far back the known geological processes of the

Phanerozoic can be extended into the Precambrian is one of the main questions The present volume provides data and interpretations which will help in formulating the answer to some of these questions The book contains 30 contributions resulting from researches on almost all the important Precambrian terranes A Report on the Economic Potential for Irrigation in Botswana Martin Upton, 1969 **World Development Report 2008** World Bank, 2007 This work will focus on three themes namely identifying new sources of growth for agriculture making agriculture more effective for poverty reduction and managing the transitions that accompany the transformation of agriculture as economies develop *Drought Policies: Case Studies on Mega-droughts for the High Level Experts and Leaders Panel on Water and Disasters (HELP)* Jerome Delli Priscolli, Kenzo Hiroki, 2019-11-15 This book focuses on mega droughts of the past 20 years Twelve cases from both developed and developing countries are elaborated in the book Its intention is to draw lessons from the cases of extremely severe water shortages so that countries and stakeholders can be better prepared for extreme drought events in the future Several recurrent themes emerge from the diverse case studies and descriptions of programs For example most chapters discuss the necessity to move from reactive compensatory to preventive policies This theme has implications for use of insurance in developing countries e g is insurance encouraging investments to help countries avoid disasters or is it acting mostly in a humanitarian way to compensate for losses to help people Several authors point to the importance of risk assessment and to developing risk based policies for drought This raises statistical issues of how such assessments of uncertainty and risks are done and how they relate to actual occurrence of events Most chapters call for more inter sectoral policies which integrate water resources management approaches and to the necessity of raising public awareness of droughts in times of no drought The issue of structural versus nonstructural is clear in most cases While often cast as either or the message that emerges is more one of how do you integrate these approaches Finally a few chapters bring to light how prevention is needed for national security as well as water security In Focus a book series that showcases the latest accomplishments in water research Each book focuses on a specialist area with papers from top experts in the field It aims to be a vehicle for in depth understanding and inspire further conversations in the sector **Report of the Commission of Inquiry Into the Economic Development of the Republic of Ciskei** Commission of Inquiry into the Economic Development of the Republic of Ciskei, 1983 *Report on Economic and Commercial Conditions in Portuguese East Africa (varies)* Great Britain. spite of serious external shocks and political destabilisation in part of the country Uganda has remained a good economic performer since the late 1980s with over a decade of high per capita growth in excess of three per cent This study concludes that Uganda's medium to long term success will depend on the achievements in institutional reforms including raising the quality of the civil service curbing corruption and implementing an effective regulatory framework This is important as a poorly functioning public sector is both unable to uphold the rule of law thus losing the public goodwill necessary for implementing new measures and a burden on the private sector as it implies increased transaction costs
