

Interior rearview mirror, automatic dimming feature*

The mirror dims automatically as required. The mirror becomes clear again when you engage reverse gear or select selector lever position R.

Keep the photocells free and clean to ensure that the mirror functions perfectly. There is one photocell in the mirror frame; the other is on the back of the mirror.

 Do not cover the area between the inside rearview mirror and the windshield, and do not place stickers or toll tags on the windshield in front of the mirror. 

- 1 Side airbags in seats on the driver and passenger sides (front)
- 2 Head airbags on the driver and passenger sides for both rows of seats (front/rear)
- 3 Front airbags on the driver and passenger sides

Protective effect

The front airbags supplement the safety belts by helping to provide additional protection for the driver and front passenger in the event of a frontal collision in which the protection afforded by the belts alone may no longer be sufficient. When needed, the head and side airbags help to furnish protection in the event of side impact. Each of the side airbags is

designed to help support the seat occupant's upper body.

For information on sitting posture, refer to page 31.

 The airbags do not deploy in response to minor collisions, rear impacts and certain kinds of vehicle rollover. 

Even when all safety guidelines are observed, there is a small residual risk that passengers will sustain facial, hand or arm injuries in isolated instances. The ignition and inflation noise may induce a mild temporary hearing loss in sensitive individuals.

 Do not apply adhesive materials to the cover panels of the airbags, cover them or modify them in any other way. Do not fit covers, cushions or other items to the front seats that have not been specially approved for seats with side airbags. Do not hang clothing, e.g. jackets, over the backrests. Do not attempt to remove the airbag restraint system from the vehicle. In the event of malfunctions, immobilization or use (triggering) of the airbag restraint system in accordance with its intended function, only commission a MINI center with the inspection, repair or disassembly.
