New Orleans' celebrated status derives in large measure from its incredibly rich food culture based mainly on Creole and Cajun traditions. At last, this world-class destination has its own food biography. Elizabeth M. Williams, a New Orleans native and founder of the Southern Food and Beverage Museum, takes readers through the history of the city, showing how the natural environment and people have shaped the cooking we all love. The narrative starts by describing the indigenous population and material resources, then reveals the contributions of the immigrant populations, delves into markets and local food companies, and finally discusses famous restaurants, drinking culture, cooking at home, and cookbooks and signature foods. This must-have book will inform and delight food aficionados and fans of the Big Easy itself. **The Revised New Orleans Underground Gourmet** Richard H. Collin, 1970

Although food and stories may be two of the most prominent cultural products associated with the South, the connections between them have not been thoroughly explored until now. Southern food has become the subject of increasingly self-conscious intellectual consideration. The Southern Foodways Alliance, the Southern Food and Beverage Museum, food-themed issues of *Oxford American* and *Southern Cultures*, and a spate of new scholarly and popular books demonstrate this interest. *Writing in the Kitchen* explores the relationship between food and literature and makes a major contribution to the study of both southern literature and of southern foodways and culture more widely. This collection examines food writing in a range of literary expressions, including cookbooks, agricultural
