**The Nuclear Family in Crisis** Michael Gordon, Harper & Row Publishers, 1976      *The nuclear family in crisis* Michael Gordon, 1972      The Nuclear Family in Crisis; The Search for an Alternative. Edited and With an Introd. by Michael Gordon Michael Gordon (Comp), 1972      *Human Rights and World Public Order* Myres Smith McDougal, Harold Dwight Lasswell, Lung-chu Chen, 2019 As a classic text of the New Haven School of International Law this book explores human rights and international law in the broadest sense taking into account social sciences research while embracing all values secured or consequently fulfilled or needed to thus be achieved The re issuance of this venerable title unveils this work to a new generation of scholars students and practitioners of international law and human rights      *The Family* J. Ross Eshleman, 1981      *Kiboets, gezin en gelijkheidsideaal* Frits Selier, 1977      **Handbook of Marriage and the Family** Suzanne K. Steinmetz, Marvin B. Sussman, 2013-11-11 The lucid straightforward Preface of this Handbook by the two editors and the comprehensive perspectives offered in the Introduction by one of them leave little for a Foreword to add It is therefore limited to two relevant but not intrinsically related points vis a vis research on marriage and the family in the interval since the first Handbook Christensen 1964 appeared namely the impact on this research of the politicization of the New Right and of the Feminist Enlightenment beginning in the mid sixties about the time of the first Handbook In the late 1930s Willard Waller noted Fifty years or more ago about 1890 most people had the greatest respect for the institution called the family and wished to learn nothing whatever about it Everything that concerned the life of men and women and their children was shrouded from the light Today much of that has been changed Gone is the concealment of the way in which life begins gone the irrational sanctity of the home The aura of sentiment which once protected the family from discussion clings to it no more We want to learn as much about it as we can and to understand it as thoroughly as possible for there is a rising recognition in America that vast numbers of its families are sick from internal frustrations and from external buffeting We are engaged in the process of reconstructing our family institutions through criticism and discussion 1938 pp 3 4

Globalization of Communes Yaacov Oved, 2012-11-02 After World War II communes and cooperative communities became internationally oriented in their membership and networking began to develop Unlike earlier such enterprises these groups shared an openness to international relationships This was evident both in the groups social composition and in the extension of networks beyond their own country Such globalization opened up the possibility of comparative analysis which has become a trend in research since the 1950s The dynamism and speed with which voluntary communities have spread throughout the world is impressive In the 1950s there were only a few hundred such societies but by the end of the last century there were thousands These have taken a variety of forms There are religious and secular communes intentional communities ecological communities co housing projects various types of Christian communities communities of Eastern religions and spiritual communities inspired by New Age thought Yaacov Oved shows that such societies maintain a community based on

cooperation and expand their influence through newspapers television and the Internet Their chief characteristic is their openness to the outside world and their search for a way to move beyond a world of individualism and competitiveness To accomplish this they embrace all the tools of the modern world Oved observes that those who predicted the failure of communes and intentional communities failed to appreciate the extent to which people in today s society aspire to communal life This book answers the doubters and does so with a sense of deep historical understanding **Contemporary Families and Alternative Lifestyles** Eleanor D. Macklin,Roger Harvey Rubin,1983-02 Single parent families reconstituted families and dual earner families this monumental effort synthesizes research and explores theories about such alternatives to traditional family life Leading scholars were asked to write chapters about the new family forms They review what is already known about their particular topic its historical context its impact on individuals and society and suggestions for future directions They also deal with such key issues as the reaction of religion to these changes **The Journal of Home**

Sell,1981 The success of the church s mission lies in large part with the well being of its families In Family Ministry Charles Sell addresses the multiple means by which a congregation can create and sustain healthy family life In survey after survey people say that family takes priority yet family ministries remain scarce in the church and family disintegration is a significant problem even in evangelical congregations Family Ministry offers the theoretical theological and practical resources for developing needed ministries This edition reflects the changes that have taken place in both society and church since the first edition was published in 1981 Journal of Current Social Issues ,1977 **The Family and Alternate Life Styles** Nick Stinnett,Craig Wayne Birdsong,Nancy M.
