State of Nature, Stages of Society Frank Palmeri,2016-03-29 Frank Palmeri sees the conjectural histories of Rousseau Hume Herder and other Enlightenment philosophers as a template for the development of the social sciences in the nineteenth and early twentieth centuries Without documents or memorials these thinkers he argues employed conjecture to formulate a naturalistic account of society s commercial and secular progression Palmeri finds evidence of speculative frameworks in the political economy of Malthus Martineau Mill and Marx He traces the influence of speculative thought in the development of anthropology and ethnography in the 1860s the foundational sociology of Comte and Spencer and the sociology of religion pioneered by Weber Durkheim and Freud Conjectural histories reveal a surprising ambivalence toward progress modernity and secularization among leading thinkers of the time an attitude that affected texts as varied as Darwin s Descent of Man Nietzsche s Genealogy of Morality and the novels of Walter Scott George Eliot and H G Wells Establishing the critical value of conjectural thinking in the study of modern forms of knowledge Palmeri concludes his investigation with its return in the work of Foucault and in recent histories on early religion political organization and material life **Theory**

Lutts,2001 Ultimately as Ralph Lutts demonstrates in The Nature Fakers the dialogue resulted in a new standard of accuracy for the responsible nature writer and reflected a new way of thinking about moral responsibilities to wildlife
