Socialism For A Sceptical Age:

Socialism for a Sceptical Age Ralph Miliband, 2020-05-05 This outstanding and original volume offers a critical examination of a number of developments which in recent years have undermined the idea of socialism and eroded its electoral appeal Among these developments are the collapse of Communist regimes the fragmentation of the constituencies upon which earlier socialist advances had depended changes in the organization and the dynamics of capitalism and a dearth of agencies committed to the socialist project The book also takes up and seeks to rebut older objections to socialism such as the notion that it is inevitably totalitarian that it is based on too optimistic a view of human nature and that it fails to take account of the tendency of power to accumulate in the hands of minorities The book argues that a social order dominated by the logic of capital and competition cannot despite all the positive claims made on its behalf produce the conditions which make true citizenship and community possible By contrast socialism offers an attractive and feasible programme for the realization of those ideals Miliband argues that socialism cannot be seen as an answer to all the ills which have plagued humankind Socialism in his view has to be understood as part of an age old struggle for a more just society and he believes that seen in this light socialism remains not only desirable but also perfectly possible Moreover he believes socialism will in time come to command a majority support which its advancement requires Socialism has to be seen as a permanent striving for the achievement of democracy egalitarianism and the creation of an economy under democratic control **Ralph**

Miliband and the Politics of the New Left Michael Newman, 2002 Ralph Miliband 1924-94 was a key 20th century political thinker His books *The State in Capitalist Society* *Quartet* and *Parliamentary Socialism* *Merlin* influenced a generation of the left and provided a focus for academic debate Miliband's life and work were devoted to the attempt to define and apply an independent form of socialism As a result of his published works teaching and role in political movements he became the most influential socialist political theorist writing in English and he was as well known in North America where he held several visiting professorships as in Britain His writings were also widely translated *The Socialist Register* which he founded with John Saville and edited for thirty years brought him into contact with left wing intellectuals throughout the world Miliband an energetic letter writer corresponded on political issues with such figures as C Wright Mills E P Thompson Leszek Kolakowski John Saville Marcel Liebman Rossana Rossanda K S Karol Andr Gorz and Perry Anderson Based on exclusive access to Miliband's extensive personal papers and supplemented by interviews this book analyses the ideas and contribution of a key figure in the British and international Left from the second world war until the collapse of communism It also provides an interpretative history of the evolution debates and dilemmas of socialists throughout the period and of the problems they faced both at work defending academic freedom and in society at large Grenzen aan de globalisering? State Building and Democratization in Africa Kidane Mengisteab,Cyril K. Daddieh,1999-01-30 State building and democratization in Africa rarely attract the attention they deserve Few have grappled with the relationship between state building nation building and democratic experiments in Africa This collection consciously corrects this shortcoming in African political studies Among the issues raised Does democracy facilitate state building or does it exacerbate ethnic conflicts Are certain modalities of democratization more likely to facilitate state building than others Has the era of democracy created the need for new state building strategies Does the objective of state building require significant modifications in the essence and form of democracy This collection combines theoretical explorations with empirical case studies It looks at both anglophone and francophone countries of sub Saharan Africa While the contributors have written extensively on African issues there is no consensus among the authors most argue that integrating ethnic groups that already face discrimination and often are engaged in conflict requires compromise political settlements and new terms of incorporation into the state These compromises in turn involve new arrangements in how democracy is perceived and
