Breakthroughs in Practice Lindsey Napier, Jan Fook, 2000 Professional practice is in crisis The formal theoretical knowledge on which practitioners base their practice is often outstripped by rapid changes in the contexts of this practice The unpredictability of workplace and broader contexts often renders existing traditional practices irrelevant or ineffective How can practitioners develop new ways of working which are flexible and responsive The reflective approach whereby practitioners draw out their theories of action directly from their own practice is becoming increasingly popular as a new approach which enables breakthroughs in practice to pass Yet reflectivity is often difficult to teach and learn because it challenges traditional often unquestioned paradigms of knowledge development Therefore rather than simply arguing for a reflective approach this book makes a unique contribution by actually modelling the use of the reflective approach in practice Students educators and practitioners are able to read illustrations of how individual social workers used a reflective process to break through specific dilemmas in their practice Thus they are enabled to understand a reflective approach by gaining insight into their experience of it Contributors to this volume come from Australia the United Kingdom and North America Their personal backgrounds are diverse They report on seminal experiences in a wide range of settings from community work in the Gorbals to hospice care in Sydney from child

protection to work with addictions The book will appeal to Trainers and managers in social work social care and health Social work students and trainees Social work academics Professional and vocational educators generally who are interested in gaining practical insights into the development of reflective understanding Lindsey Napier is Senior Lecturer in Social Work at the University of Sydney Jan Fook is Professor of Social Work Deakin University Geelong Australia **Good Health** ,1871

The Theater of Terrence McNally Raymond-Jean Frontain,2019-10-04 Terrence McNally s canon of plays books for musicals and opera libretti possesses such a breadth of subject matter and diversity of dramatic modes that critics have had difficulty assessing his accomplishment This book is the first critical study to identify the four major stages of McNally s development in terms of his understanding of how theater helps the modern person trapped in a seemingly profane existence to find a gateway to the transcendent Drawing upon such diverse religious thinkers as Martin Buber Mircea Eliade Ilia Delio and Carter Heyward Frontain analyzes the evolution of McNally s understanding of grace not as a gift bestowed by an all powerful deity upon a desperate soul but as the unwarranted and thus all the more unusual act of devotion McNally s phrase that one person performs for another By seeking to foment community most importantly at the height of the AIDS pandemic McNally s theater itself proves to be a channel of grace McNally s greatest success is shown to be the creation of a theater of empathy and compassion in contradistinction to Artaud s theater of cruelty and Albee s Americanization of the theater of the absurd **Chamber's Journal of Popular Literature, Science and Arts** ,1876 **Death Education and the Educator** James Hugh Miller,Anthony F.
