**The Dialectic of Essence** Allan Silverman, 2009-02-09 The Dialectic of Essence offers a systematic new account of Plato's metaphysics Allan Silverman argues that the best way to make sense of the metaphysics as a whole is to examine carefully what Plato says about *ousia* essence from the *Meno* through the middle period dialogues the *Phaedo* and the *Republic* and into several late dialogues including the *Parmenides* the *Sophist* the *Philebus* and the *Timaeus* This book focuses on three fundamental facets of the metaphysics the theory of Forms the nature of particulars and Plato's understanding of the nature of metaphysical inquiry Silverman seeks to show how Plato conceives of Being as a unique way in which an essence is related to a Form Conversely partaking having is the way in which a material particular is related to its properties Particulars thus in an important sense lack essence Additionally the author closely analyzes Plato's idea that the relation between Forms and particulars is mediated by form copies Even when some late dialogues provide a richer account of particulars Silverman maintains that particulars are still denied essence Indeed with the *Timaeus*'s introduction of the receptacle there are no particulars of the traditional variety This book cogently demonstrates that when we understand that Plato's concern with essence lies at the root of his metaphysics we are better equipped to find our way through the labyrinth of his dialogues and to better appreciate how they form a coherent theory

*Being and Dialectic* Brian Jonathan Wolk, 2016-10-07 Existential dialectical materialism is the philosophic synthesis of Marxism dialectical materialism and existentialism providing the delineation of a new philosophic paradigm based on a more adequate view of humanity and the nature of human reality *Being and Dialectic* sets forth the core principles of the philosophy Among other insights the new and intriguing law of politicoeconomic entropy is shown to naturally arise from the

philosophy's deductive structure Existential dialectical materialism is at once both a philosophy of revolution and conservatism being the rational result of the necessary dialectic development of political philosophical theory and thought

**Karel Kosík and the Dialectics of the Concrete**, 2021-12-06 Karel Kosík 1926-2003 was one of the most remarkable Czech Marxist philosophers of the twentieth century. His reputation as a creative thinker is owed largely to his philosophical blockbuster *Dialectics of the Concrete* first published in Czechoslovakia in 1963. In reintroducing Kosík's philosophy to English speaking readers we show that Kosík's work is important not only as a leading intellectual document of the Prague Spring but also as an original theoretical contribution with international impact that sheds light on the meaning of labour and praxis cognition and economic structure and revolution and the crises of modernity. New Exploration of Hegel's Dialectics II, 2022-05-10 Focusing on the self negation and reflective forms of Hegel's dialectics and representing the spirit of *nous* and *logos* respectively this volume explores core functions in the subjectivity free spirit and practicality of Hegelian dialectics. As the second volume of a three volume set that gives insights into Hegel's dialectics and thereby his overall philosophical thought the book proposes and discusses the soul and form of Hegelian dialectics. As the soul of Hegel's dialectics which represents the spirit of *nous* self negation plays a fundamental role in Hegel's philosophy and all other dialectical laws derive from this core principle with which the subjectivity and free spirit of Hegel's dialectics take shape along with their essential practicality. The form of expression belonging to this negative dialectic as such is the reflective mode of thinking that represents the spirit of *logos* and it is this reflective mode of thinking that follows the logical procedure of reflecting on reflection rendering the progression of Hegel's dialectical subject lawful, rational and logical. The title will appeal to scholars and students interested in Hegel's and Marx's philosophy, German classical philosophy and Western philosophy.

**Kierkegaard and the Dialectics of Modernism** Jørgen S. Veisland, 1985 Kierkegaard and the Dialectics of Modernism defines literary Modernism represented by seven English, American and Scandinavian authors as not only a manifestation of man's separation and alienation from himself and society but also as an expression of man's struggle towards integration and liberation. In the texts this dialectic is reflected in the ironic interplay between the fragmentation of language and the poetic longing for wholeness. Kierkegaard's philosophy and Freud's psychology express a conflict comparable to the Modernist dilemma. The areas of philosophy, psychology and literature when examined dialectically reveal a common response in different terms to a shared historical situation.
