Territories of Grace Keith P. Luria, 2024-06-28 *Territories of Grace* offers a sophisticated model of cultural change in early modern rural society by examining the religion of villagers in the French diocese of Grenoble during the Counter Reformation. Keith P. Luria describes the encounter of village and official forms of piety, arguing that historians have oversimplified the struggle between high and low culture in early modern Europe. He shows how religion was constructed in a complex relationship between villagers concerned with creating their own religion and a bishop intent on cultivating in his flock a Counter Reformation style of worship and a new standard of social behavior. Luria analyzes records of pastoral visits, examines forms of devotion to saints, and undertakes an ethnographic investigation of one community to illustrate this interaction. He uncovers a process of cultural change in which villagers and reformers alike took an active role in creating their own culture by adopting, adapting, or resisting the symbols, practices, and meanings of others. The theoretical insights of his study will be of interest to historians, anthropologists, and others concerned with rural society, comparative religion, and questions of cultural change. This title is part of UC Press's Voices Revived program, which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice, reach, and impact. A People's History of Christianity, Vol 2 Denis R. Janz, 2014-03-01 On its release, the seven-volume *A People's History of Christianity* was lauded for its commitment to raising awareness of the ways in which ordinary Christians have lived throughout more than twenty centuries of Christian history. Early Modern Catholicism John W. O'Malley, 2001-01-01 The so-called Counter or Catholic Reformation has traditionally been viewed as a monolith, but these essays decisively challenge this interpretation, emphasizing the variety, vitality, and complexity of Catholicism in the early modern era.

Liberation Theology Along the Potomac Edward F. Terrar, 2011 Explores the particular beliefs of Maryland's Catholic laborers who were at odds with the traditional English Catholic gentry in opposition to their crown parliament, clergy, and papacy, and sympathetic to the Protestant Antinomians seeking to challenge the established order of Maryland's church and state. The economic, intellectual, legal, and social history of the Maryland Catholics during the English Civil War is compared to related developments in Europe, Latin America, and Africa.

The Ashgate Research Companion to the Counter-Reformation Alexandra Bamji, Geert H. Janssen, Mary Laven, 2016-03-23 In the last two decades, the history of the Counter Reformation has been stretched and re-shaped in numerous directions. Reflecting the variety and innovation that characterize studies of early modern Catholicism today, this volume incorporates topics as diverse as life cycle and community, science and the senses, the performing and visual arts, material objects and print culture, war and the state, sacred landscapes and urban structures. Moreover, it challenges the

conventional chronological parameters of the Counter Reformation and introduces the reader to the latest research on global Catholicism The Ashgate Research Companion to the Counter Reformation presents a comprehensive examination of recent scholarship on early modern Catholicism in its many guises It examines how the Tridentine reforms inspired conflict and conversion and evaluates lives and identities spirituality culture and religious change This wide ranging and original research guide is a unique resource for scholars and students of European and transnational history *The Cult of the Nation in France* David A. Bell,2003-09-01

In a work of lucid prose and striking originality Bell offers the first comprehensive survey of patriotism and national sentiment in early modern France and shows how the dialectical relationship between nationalism and religion left a complex legacy that still resonates in debates over French national identity today *Beyond Belief*

Christie Sample Wilson,2011-09-16 Beyond Belief Surviving the Revocation of the Edict of Nantes in France presents a demographic study of the behaviors of Protestants and Catholics in a town in southeastern France between 1650 and 1715 The Protestants in Loriol did not endure the full array of horrors experienced by so many French Protestants and survived pressure to convert until the Revocation itself The entire community managed to minimize the interference of the crown and the Catholic Church in their affairs through the end of Louis XIV's reign Their story speaks of compromises by individuals and groups of both confessions that buffered the community from royal force It sheds light on the layers of cooperation by elites and those of more humble backgrounds upon which the government of Louis XIV relied to achieve the outward appearance of conformity Beyond Belief addresses current and continuing debates into the nature of confessionalization and the nature of royal authority under Louis XIV Examination of the behaviors of Catholics and Protestants and analysis of the degree to which their behaviors corresponded with the teachings of their respective church reveal that the people of Loriol particularly Protestants understood the expectations of their religion and behaved accordingly prior to the Revocation In the aftermath of the Revocation former members of the Protestant congregation conformed their behavior to the requirements of the Catholic Church and the crown without fully compromising their Protestant beliefs Beyond Belief shows that the extension of state power and its limitations resulted from the cooperation of a broad range of people rather than focusing on elites The experience of Loriol shows that a large portion of the community was involved in the tacit acceptance of Protestants a position that served those of both confessions by minimizing the interference of outside civil and religious authorities *The Journal of Ecclesiastical History* Clifford William Dugmore,2001 *Explaining Change in Cultural History* Niall Ó Ciosáin,2005
