Kundera, Or, The Memory of Desire Eva Le Grand, 1999 This is more than a literary critique it is a work of perception of analysis that reveals a portrait of Kundera the novelist as one of the greatest demystifiers of our time This significant work deals with all of Milan Kundera s novels up to his most recent work *Slowness* which marks the beginning of a new phase of his writing It is the first work that studies Kundera as a novelist rather than a philosopher or intellectual guide and the only one that diverges from the beaten path in examining and in reflecting on the composition and style of these novels to discern the underlying humanity and originality of the work as a whole and to finally establish the connections and correlation within and between the novels connections that conventional criticism can never reveal
