**The Permission Society** Timothy Sandefur, 2016-09-13 Throughout history kings and emperors have promised freedoms to their people Yet these freedoms were really only permissions handed down from on high The American Revolution inaugurated a new vision people have basic rights to life liberty and the pursuit of happiness and government must ask permission from them Sadly today s increasingly bureaucratic society is beginning to turn back the clock and to transform America into a nation where our freedoms the right to speak freely to earn a living to own a gun to use private property even the right to take medicine to save one s own life are again treated as privileges the government may grant or withhold at will Timothy Sandefur examines the history of the distinction between rights and privileges that played such an important role in the American experiment and how we can fight to retain our freedoms against the growing power of government Illustrated with dozens of real life examples including many cases he litigated himself Sandefur shows how treating freedoms as government created privileges undermines our Constitution and betrays the basic principles of human dignity [Vivian Castleberry](#) Kimberly Wilmot Voss, 2023-03-06 Considered by some as the most important woman in Dallas in the latter half of the 20th century Vivian Castleberry was a force for women nationally and internationally In shining a light on her career more becomes known about her fights and her victories Through this book historians can better understand that the relationship of the women s pages to the women s movement between the 1950s and 70s was more complex than previously explored Known as the godmother of the Dallas women s movement Vivian was a trailblazer Yet she was also a mother of five daughters at a time when working outside the home was still being challenged and that was an experience many middle class women struggled with Her role in the public sphere meant she often told the stories of others This book is her story
