Terrorist Within:

Terrorist in Search of Humanity Faisal Devji, 2019-12-01 Faisal Devji argues that new forms of militancy such as the actions of al Qaeda are informed by the same desire for agency and equality that animates other humanitarian interventions such as environmentalism and pacifism To the militant victimized Muslims are more than just symbols of ethnic and religious persecution they represent humanity's centuries long struggle for legitimacy and agency Acts of terror therefore are fueled by the militant's desire to become a historical actor on the global stage Though they have yet to build concrete political institutions militant movements have formed a kind of global society and as Devji makes clear this society pursues the same humanitarian objectives that drive more benevolent groups

Terrorist in Literature and Visual Culture Michael C. Frank, Maria Flood, 2023-05-29 The contemporary preoccupation with terrorism is marked by a curious paradox whereas the topic has been ubiquitous in public discourse since the late twentieth century the voices of terrorists themselves are usually silenced Is the terrorist the quintessential proscribed or tabooed figure of our times as cultural anthropologists Joseba Zulaika and William A Douglass have suggested The present volume is the first to approach the tabooing of terrorists from an interdisciplinary and comparative perspective Covering a broad geographical scope it explores how different media forms such as novels fiction and non fiction films or comic books frame and make sense of the figure of the terrorist do they reinforce the terrorism taboo or do they find ways of circumventing it Each contribution asks how factors such as ideological agenda religious identity ethnicity and gender impact the way the perpetrators of political violence are conceived in different historical moments and cultural contexts

Symbolism in Terrorism Jonathan Matusitz, 2014-09-16 The symbolic value of targets is what differentiates terrorism from other forms of extreme violence Terrorism is designed to inflict deep psychological wounds on an enemy rather than demolish its material ability to fight The September 11 2001 attacks for example demonstrated the power of symbolism The World Trade Center was targeted by Al Qaeda because the Twin Towers epitomized Western civilization U S imperialism financial success modernity and freedom The symbolic character of terrorism is the focus of this textbook A comprehensive analysis it incorporates descriptions definitions case studies and theories Each chapter focuses on a specific dimension of symbolism in terrorism and explains the contexts and processes that involve the main actors as well as the symbolism of both the purposes and targets of terrorism Also discussed are new religious movements which represent another important aspect of terrorism such as Aum Shinrikyo the Japanese cult that used sarin gas in the Tokyo subway in 1995 Over forty areas of symbolism are covered throughout the chapters including physical and non physical symbolism linguistic symbolism the social construction of reality rituals myths performative violence iconoclasm brand management logos semiotics new media and the global village This allows for an in depth examination of many issues such as anti globalization honor killing religious terrorism suicide terrorism martyrdom weapons female terrorism public communication visual motifs and cyberspace Main

I Think There's a Terrorist in My Soup David Brenner, 2003-09 On September 11 2001 veteran comedian David Brenner was in the midst of a 48 week stand up gig in Las Vegas Immediately after that day he cancelled the engagement and instructed his manager to book him on a nationwide tour He called it the Laughter to the People tour and on it he shared his humor with a grieving nation Audience response was overwhelming In this book Brenner draws on highlights from his stand up material to show how humor can give us the power to transcend personal and world problems from the unavoidable like aging to the uncontrollable like war The essays in the book cover a wide range of issues including fear of flying aging marriage and divorce pets politics terrorism and religion

Money Laundering and Terrorism Financing Risks in Botswana Jackson Madzima, 2009 This paper is a contribution to the debate on the risks of money laundering and the financing of terrorism in Botswana It provides an overview of Botswana's Anti Money Laundering and Counter Financing of Terrorism AML CFT regimes An analytical framework woven around the three pillars of prevention enforcement and international co operation is used in this discussion As a benchmark for the discussion the paper outlines the international regulatory regimes for curbing both money laundering and the financing of terrorism The paper is premised on the assumption that both money laundering and the financing of terrorism have similar characteristics and can thus be analysed within the same framework A number of risks are highlighted within the prevailing economic and political context in Botswana While recognising an increasingly improving AML CFT legal framework it is noted that in the absence of a risk
